KL University Student Teams Won Two Prizes at Rashtriya Innovation Challenge 2026

KL University Student Teams Won Two Prizes at Rashtriya Innovation Challenge 2026

KL University proudly celebrates the achievement of its student teams, which secured **two prizes at the Rashtriya Innovation Challenge 2026**, an initiative of the Government of Andhra Pradesh, organized through the **Ratan Tata Innovation Hub (RTIH), Amaravati**.

The challenge aimed to promote innovation, creativity, and entrepreneurial thinking among students by providing a platform to identify real-world problems, develop innovative solutions, and showcase their ideas across four key sectors.

The event witnessed enthusiastic participation from approximately **80 teams representing Guntur, Krishna, Markapuram, and Palnadu districts**.

A major highlight of the competition was the remarkable achievement of TWO STUDENT TEAMS FROM KL UNIVERSITY WINNING PRIZES, bringing recognition to the University's innovation ecosystem. This accomplishment reflects the students' creativity, innovative thinking, technical capabilities, and dedication to developing practical solutions to real-world challenges.

In the Guntur district, 16 teams participated, demonstrating remarkable enthusiasm and problem-solving capabilities. KL University also played a significant role in hosting and facilitating the challenge by providing the necessary institutional support and infrastructure for its successful conduct.

The competition was conducted across four sectors, with awards presented in each sector in every participating district to recognize outstanding ideas and innovative solutions.

Through its continued association with RTIH and the Government of Andhra Pradesh, KL University remains committed to promoting innovation, entrepreneurship, design thinking, and startup culture among students.

The achievement of the two winning teams reinforces KL University's commitment to nurturing young innovators and empowering students to transform creative ideas into impactful solutions for society.
