Date: 03-12-2021

**OFFICE ORDER**

Sub: Celebration of “World Soil Day” by College of Agriculture, KLEF, on 5<sup>th</sup> December 2021-Reg.

Ref: Letter dated 03.12.2021 from Mr.Kummara Setti Veera Bhadra Rao, HoD-Agriculture

\*\*\*

This is to inform that College of Agriculture, KLEF, is organizing “World Soil Day” on 5<sup>th</sup> December 2021 in our University as per the details given below.

Date and timing: 2.00 p.m.to 5.00 p.m. on 5<sup>th</sup> December 2021

Venue: Theatre in R&D Block

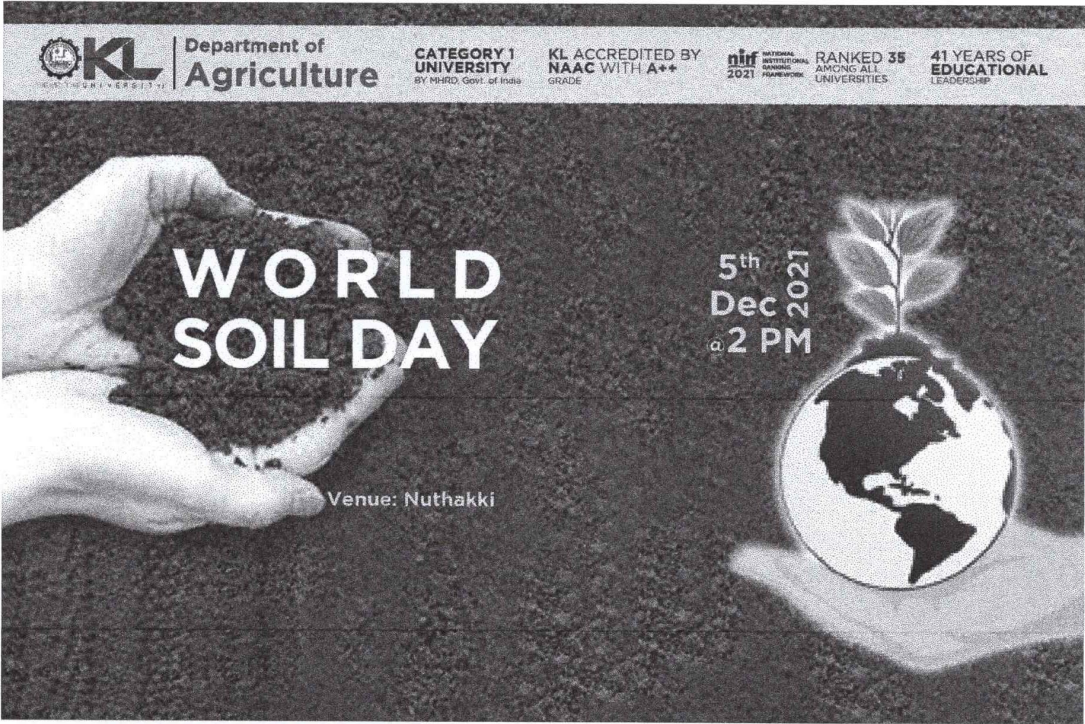

All the students, faculty members and non-teaching staff are invited.

HODs are requested to bring this information to the notice of all the students, faculty members and non-teaching staff of their respective departments.

Poster of the event is enclosed herewith.

### **WORLD SOIL DAY**

**Date** : 05/12/2021  
**Venue:** : Theatre in R&D Block  
**Time** : 2:00 P.M to 5:00 P.M

#### **OBJECTIVES**

To raise awareness about the importance of soil health and its crucial role in sustainable agriculture, food security, and ecosystem preservation and to highlight the urgent need to address soil degradation, erosion, pollution, and loss of soil biodiversity worldwide.

Promote best practices and innovative solutions for soil conservation, restoration, and sustainable land management. Foster collaboration and knowledge-sharing among stakeholders to achieve the Sustainable Development Goals related to soil health, biodiversity, and climate change mitigation. Overall, the aim was to emphasize the fundamental significance of healthy soils for the well-being of humanity and the planet, and to catalyze collective efforts towards their protection and sustainable management.

#### **DESCRIPTION**

College of Agriculture, KLEF, celebrated "World Soil Day 2021" on 5th December with full zeal and enthusiasm. Dr. Veeraraghavaiah Ravuri, Director-Agriculture were gracing the inauguration of the event. It began with lighting of the lamp by the dignitaries invoking God's blessings on the gathering.

Mr. K. Setti Veera Bhadra Rao welcomed everyone and inaugurated the event with a brief note on soils: the starting point of food. He emphasized that increasing the area under bio-intensive pest management through the promotion of bio-agents and bio-pesticides can further improve soil health by reducing the usage of hazardous chemical pesticides.

Dr. Veeraraghavaiah Ravuri in his talk on "Exploring Soils from Space & Soil Candidates in Outer Space" brought attention to space studies on soil science, which included

soil mapping and remote sensing. The study of extraterrestrial soils, or "astropedology," now has a whole new window of opportunity because to space travel. Because of their potential for crop growth and mineral extraction, the properties of the soils of celestial worlds other than Earth are attracting increasing amounts of attention. In a pedological sense, he added, these soil candidates provide important data about the surfaces of the planets, moons, asteroids, and comets in our solar system. Future human settlement and farming on planetary bases may be facilitated by research into these physically and/or chemically weathered particles.

Students also shared their views on how to create awareness and conserve soil by preparing charts and placards.

The event came to an end with the distribution of prizes and certificates to the students who participated and won in the events conducted such as essay writing, elocution and quiz on the theme of "Soil and Water: A Source of Life". The event came to an end with the vote of thanks.

#### **OUTCOMES**

The outcomes of World Soil Day 2021 included heightened global awareness about soil health and its importance for sustainable development. It stimulated policy discussions and encouraged the adoption of best practices for soil conservation. Community engagement in soil-related initiatives was increased, fostering a sense of responsibility towards soil stewardship. Furthermore, the event facilitated collaboration leading to commitments and actions to address soil degradation and promote sustainable land management practices.
