### About The Workshop

Academic writing is an integral process of research and generation of scientific knowledge. The research scholars in humanities and social sciences in Indian Colleges/Universities/Institutions lack in the ability to prepare a research proposal, a research synopsis, research reports and also to frame dissertations or thesis in a systematic manner. Owing to lack of adequate knowledge of plagiarism (academic stealing), and intensive training in research methodology, literature review, critical thinking, and academic writing skills, they are neither able to produce an effective thesis or dissertations nor write a standard research paper or article in the reputed journals like Scopus, and Web of Science etc. This workshop mainly covers all these issues in research. All the students, research scholars, and faculty members will be benefited from this academic event.
