## EVENT DETAILS

EVENT TITLE: Medical Camp

DATE: 01-3-2024

VENUE: K L University

ORGANISED BY: 10(A)Girls Bn,  
NCC, KLEF

SUPPORTED BY: Dr. Pavani,  
**ANO of 10(A)Girls Bn,  
NCC, KLEF.**

## **EVENT DESCRIPTION**

### **Introduction:**

On 1/03/20203 10(A)GIRLS BN conducted a Medical Camp in association with Prathyusha hospital, Duhitha and Amaravathi eye hospitals at KLU, Indoor. A circular was sent to the university members to aware them of the medical camp.

### **Objective:**

The objective of the Medical Camp conduction is to make sure that the health of cadets students and staff of the university is well maintained or not. As well as to create awareness of general health among the people, provide general healthcare services, and counsel them on basic healthcare and hygiene.

### **Attendance and Participants:**

The event was attended by 100 members along with their friends. Many members have actively participated in the Medical Camp.

### **Program Highlights:**

This includes diagnoses, treatment, and awareness sessions. While most medical camps are set up to provide individuals with prompt consultation and screenings, a medical camp can include a healthcare awareness, and preventative care session or can also be an exclusive awareness camp.

### **Key Messages**

Here are some of the key points that highlight the importance of conducting of Medical camp:

The importance and objectives of the free medical camp are vital, but the main objective is that the free medical camps are set up with the sacred aim of bringing awareness amongst the deprived population of the country who have no access to basic healthcare services or knowledge about the diseases they are

suffering from. So, Transparent Hands provide the importance and objectives of the medical camp free medical advice, and medicine to unfortunate people, and refer them for specialized treatment or surgery whenever it is required. These camps make sure people are getting the healthcare at the right time, and seeing the doctor early enough before a small health problem turns serious.

**Conclusion:**

Through this event, we have helped many people to diagnose their health status.

Conducting this type of event develops helping nature in cadets and creates social awareness about self-care and good well-being.
