

## **LIQUID CRYSTAL RESEARCH CENTRE (LCRC-R&D)**

### **1.0 Introduction to the Center**

The Liquid Crystal Research Centre headed by Prof. VGKM Pisipati in K L University, has been working in the area of liquid crystals from the past four years. The major work done in our laboratory is design, synthesis of new materials, characterization of different liquid crystalline phases and physical properties studies like dilatometry, optical birefringence, molecular polarizabilities, dielectric anisotropies, spontaneous polarization for the case of ferroelectric liquid crystals. All these studies have been carried out on different variety of Schiff base liquid crystal compounds such as nO.m, n.Om, nO.Om, n.m., PBnA, PBOA, and TBnA series. The work is not only confined to monomers, in view of the importance it is extended to dimeric liquid crystals.

Recently, our group has entered into new fields in application point of view such as nanotechnology and liquid crystal antennas. So, far we have communicated a good number of publications in the area of liquid crystal antennas and some prototype models are fabricated and tested.

### **Associated Members of LCRC-R&D**

| S.No | Employee Number | Name                | Designation      | Experience in KLU | Research Area   |
|------|-----------------|---------------------|------------------|-------------------|-----------------|
| 1    | 1719            | Prof. VGKM Pisipati | Director         | 4.5 Years         | Liquid Crystals |
| 2    | 1737            | B.T.P.Madhav        | Assoc. Professor | 4.5 Years         | Antennas        |
| 3    | 1751            | D. Madhavi latha    | WOS              | 4 Years           | Liquid Crystals |

| 3  | Fractal Shaped Sierpinski on EBG Structured Ground Plane                                     | Dhatri                 | 2013-13         | B.T.P.Madhav       |
| 4  | Ultra Wide Band Notched printed Compact Antenna  | K.Naresh babu          | 2012-13         | B.T.P.Madhav       |

## **9.0 List of PhD Projects Conducted in the Lab:**

| S.No | Title of Project   | Scholar name         | Year of Project                      | Faculty/Supervisor                       |
|------|--|----------------------|--------------------------------------|--|
| 1    | Thermal and optical properties of some 7O.Om liquid crystalline compounds            | Miss D.Madhavi Latha | Ph.D. Thesis submitted in July 2012. | Dr.VGKM Pisipati                         |
| 2    | Substrate permittivity effects on the performance of compact and broad band antennas | Mr. B. T. P. Madhav  | Pre-Ph.D. Completed in Nov. 2012     | Dr. Habibullah Khan and Dr.VGKM Pisipati |

## **10. 0 List of Working Models in Existence in the Center**

| S.No. | Title of the model                       | Cost of the development of the model | Specification and working of the model |
|-------|--|--------------------------------------|--|
| 1.    | Liquid Crystal rectangular patch antenna | Rs. 5,000/-                          | Testing at RCI, Hyderabad.             |
| 2.    | Liquid Crystal circular patch antenna    | Rs. 5,000/-                          | Testing at RCI, Hyderabad.             |
| 3     | T-Slotted Microstrip Patch Antenna       | Rs 3,000/-                           | M.Tech Project Batch-2012-13           |
| 4     | Serrated Fractal Antenna                 | Rs 5, 000/-                          | B.Tech Project Batch-2012-13           |
| 5     | Slotted Aperture Antenna                 | Rs 5,000/-                           | B.Tech Project Batch                   |

## **11.0 Budget details for the last 4 Years The following amounts are received from**

1. The management KL University ---- Rs. 22,00,000/-
2. Department of science and technology, New Delhi --- Rs. 26,00,000/-
3. DST WOS, New Delhi --- Rs. 11,00,000/-

Total amount has been spent in purchasing the equipment (50, 00,000/-) and chemicals (8, 00,000/-), Stationary etc.

## **12.0 Research Collaborations with Outside World**

- 1) RCI Hyderabad, EMI/EMC wing regarding Antennas Testing
- 2) SD Polymers, Machilipattanam regarding Liquid Crystal Compounds preparation.
- 3) Atlantic Circits, Hyderabad for Fabrication of Antennas.
