VERONA
INFORMATICS (P) LTD

Dt.19th November 2012

Dear Sir,

Greetings! ! !

This has reference to my discussion at our office, M/s Verona Informatics, Hyderabad, with Mr. P. Rama Linga Raju garu and Mr. G.D.K.Kishore of your University , concerning the project work for VIII Semester of your BTech students,

While sharing the success of your students associated with us we would like to offer to a more number of students for further internship as we are introducing the technology - Cloud Computing along with the existing technologies like Java, Dot net and PHP.

We take the pleasure to inform you that we can provide training and **could** involve the capable students into our projects to the extent of 60 members. Further we take the pride to inform you that recently entered to a new branch at Panjagutta Circle with a higher number of seating.

The new branch is located in heart of the city where the transport and accommodation is very convenient to all segments of people.

Also we intend to charge a training fee of **Rs. 6,000/- per students for java or Dot net and Rs.7,000/-** for **Cloud Computing**. The students would be Certified on the technology trained apart from the regular

We highly appreciate further suggestions/advices from your side.

Please let us know your interest in this regard at the earliest as necessary arrangements has to be made.

Thanks and regards,

Company Overview:

Sudaksha Education Enterprise, a unit of XRG Consulting Pvt. Ltd. (herein after referred to as **Sudaksha3Edge**) is instituted to transform and empower the fresh graduates with right technical & corporate acumen to make them employable and industry ready since the year 2006. We are operating from 4 locations within the state of AP with a transforming capacity of approximately 1500 per year with an employee base of over 40 currently.

- **Key Objectives:**

  1. To enhance employability among fresh graduates (currently only 12-15% are getting absorbed as part of campus placements)
  2. Improve quality of technical education among Higher Educational Institutions by running an integrated IT finishing school at/off Campus for better Campus placements

- **Value Proposition:**

  - 50% year on year improvement in delivering employable students from Academic Institutions and Quality of Teaching among the Faculty.
  - Corporate Connect for higher technical institutions in providing off campus placements and project internships.

***Important Note**: with effect from July 16th 2012, all of the operations of 3Edge Solutions in State of AP have been transferred under Sudaksha3Edge for operational ease while both entities continue to use the same branding. Visit www.3edge.in*

Our Achievements

- Operational in 8 centres across India with a transforming capacity of over 1200 graduates per quarter.
- Strategic Partner in Graduate Sourcing & Training for 4 of Top 10 Indian IT companies
- Government of Andhra Pradesh awarded the status of "Knowledge Partner" for employability enhancement in IT and ITES sectors
- Built more than 5000 successful careers through our Finishing School till date
  - More than 90% students placed in reputed IT firms
  - 3Edge program, recognized to be the best by *Scope International* for their Entry Level Associates globally.
  - DST officially recognizes 3Edge Program to be the best for their ELT.
- Over 6000 Under Graduates / Graduates are empowered by 3Edge Integrated **"on campus training programs"** till date.

KL University
Guntur 522 502

Dear Sir,

This refers to the personnel discussion I had with your faculty **R.Sharda**. I confirm an intake your students for Finishing School commencing in January 2013. I would like to take the students from the following disciplines

Discipline	**No. of students**
Electronics and Communications Engineering	5

Project Name: Avaya Technology Services Support for Avaya Channel partners in US

Avaya is a global provider of business communications systems. The company provides unified communications, contact centers, data solutions and related services directly and through its channel partners to leading businesses and organizations around the world. Enterprises of all sizes depend on Avaya for state-of-the-art communications that improve efficiency, Collaboration, customer service and competitiveness.

Inspiredge works closely with Avaya Channel partners in US and provide Pre sales, Implementation, Maintenance and Support for their clients. Our employees are skilled to work on Avaya products and are certified Avaya engineers. As part of this intake, we will be training these students on Avaya products and allow them to implement their learnings on the customer requirements.

The students should be trained on soft skills before joining our Avaya training program

Sir,

Sub: Granting for Permission for **LIVE-PROJECTS** in **South Central Railway**, Vijayawada - Reg

*****

"Indian Railways.... the golden Era"

"South Central Railway was formed on 2nd October, 1966 as the 9th zone of the Indian Railways. In its forty two years of committed service and path breaking progress, South Central Railway has grown to a modern system of mass transportation fulfilling the aspirations of the passengers/customers and carved a niche for itself in Indian Railways system. On formation of the South Central Railway Vijayawada Division is a part of it. The Vijayawada Division forms a vital link in the network of Indian Railways; it is the threshold to South India and connects East, South, West and North"

E-WORLD – A Prestigious **SOFTWARE TRAINING AND DEVELOPMENT CENTRE** develops various software's for the Railway Departments and conducts various computer trainings for the railway employees and their children.

E-WORLD – has imparted Software Trainings to the railway employees of different departments of Vijayawada division under "Management Information Systems". It has developing the different types of software for the Departments in the South Central Railway, Vijayawada Division. On this account, we are providing the **LIVE-PROJECTS** including **certificates** from various **Departments** of **SCR/BZA** for the students **B. Tech (CSE, ECE, IT and ECM)** and **MCA** belonging to various engineering colleges **affiliated to JNTUK, Nagarjuna University, Vignan**

Scanned by CamScanner

University, Vikramasimhapuri University, SV University, Andhra University, NIIT, etc., during the last five years.

With reference to your mail, we are glad to inform you that our Organisation is considering you to accommodate the students to take up projects in South Central Railway, Vijayawada Division for the academic year **2012-2013** with reasonable fee. We are able to provide guidance for limited **B. Tech** and **MCA** students. For further extension of the candidates, you may be informed in advance.

We will be grateful to receive your students for providing the LIVE PROJECTS IN SOUTH CENTRAL RAILWAY, VIJAYAWADA DIVISION.

VERONA
INFORMATICS (P) LTD

Dt.19th November 2012

Dear Sir,

Greetings! ! !

This has reference to my discussion at our office, M/s Verona Informatics, Hyderabad, with Mr. P. Rama Linga Raju garu and Mr. G.D.K.Kishore of your University , concerning the project work for VIII Semester of your BTech students,

While sharing the success of your students associated with us we would like to offer to a more number of students for further internship as we are introducing the technology - Cloud Computing along with the existing technologies like Java, Dot net and PHP.

We take the pleasure to inform you that we can provide training and **could** involve the capable students into our projects to the extent of 60 members. Further we take the pride to inform you that recently entered to a new branch at Panjagutta Circle with a higher number of seating.

The new branch is located in heart of the city where the transport and accommodation is very convenient to all segments of people.

Also we intend to charge a training fee of **Rs. 6,000/- per students for java or Dot net and Rs.7,000/-** for **Cloud Computing**. The students would be Certified on the technology trained apart from the regular

We highly appreciate further suggestions/advices from your side.

Please let us know your interest in this regard at the earliest as necessary arrangements has to be made.

Thanks and regards,

To: sri dhar <dadhisridhar@gmail.com>

Dear Sir,

Please refer to your trailing email.

We are willing to provide in-plant training to 6 of your students (Mechanical-3 and Electrical-3) for a period of 5 months starting from July '13 subject to a payment of Rs.6,000/- per student for the five month period. The amount is to be paid by the student at the time of commencement of the training.

other facility will be extended to the students.

The students should be covered by insurance for their health and accident coverage and BHPV Management will not accept any liability whatsoever in this respect.

Regards.

S V Subba Rao,

DGM (L&A),

Course Brief -1

Google Android Training
Android is a mobile operating system based on Linux kernel. It allows developers to write managed code using Java programming language. This course is designed for Java programmers who want to kick start their careers in mobile application development

Getting Started
Overview of Android and Android SDK
Getting to know your Android development environment
Writing your first Android application
Running and debugging your application
Working with Android simulator
Test your application on device

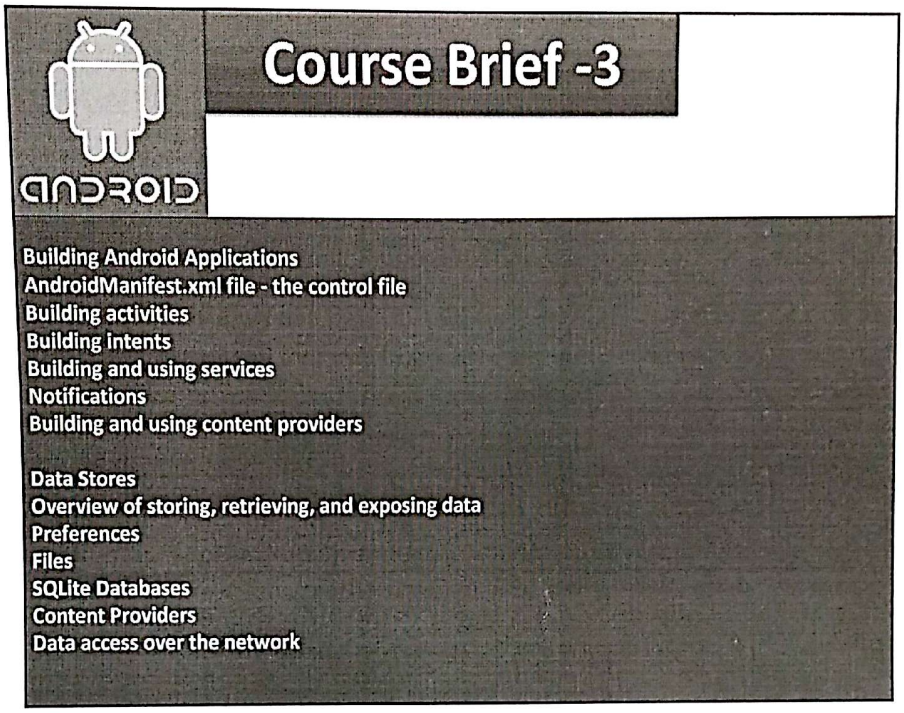

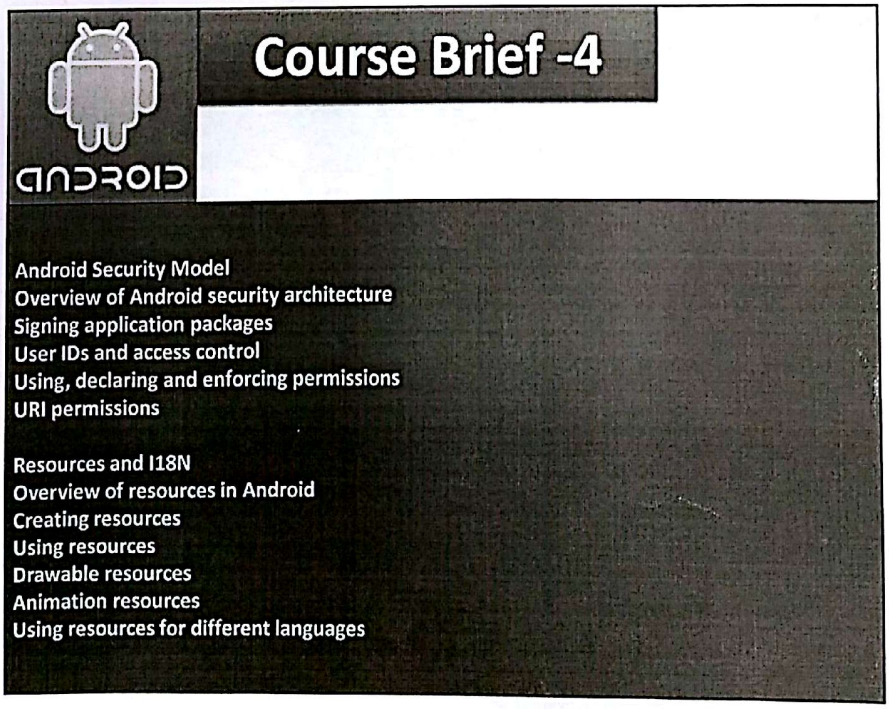

Course Brief -2

Android Applications - The Big Picture
Android architecture
Android application model
Overview of Android application building blocks
Application design guidelines
Application lifecycle

Building User Interface
Overview of Android's view structure
Android built-in layouts
Defining a layout in XML
Android built-in Views
Event handling
Building custom views and layouts

iOS 6
The world's most advanced mobile operating system

Course Brief -3

Basic module

Introduction to the Xcode 4.2 development environment, the complete revamped IDE to build iOS apps.
A theoretical intro to Objective-C, the object oriented programming language to build iOS. We talk about classes, objects, properties, message sending, memory management and Foundation classes.
Background information about Design Patterns being used throughout the Cocoa Touch framework, including the Singleton pattern, Model-View-Controller and Delegate pattern.
A dive into the iOS SDK and iOS technologies.

iOS 6
The world's most advanced mobile operating system

Course Brief -4

Essentials Module
Develop your own "Hello World"!
Organize data using Table Views. This is one of the-, maybe most used Control within an IOS app.
Navigate between different View Controllers using the Navigation Controller and Tab Bar Controller.
Keyboard Input and Gesture Recognizers will also be tackled!

Scanned by CamScanner

iOS 6
The world's most advanced mobile operating system.

Course Brief -5

Advanced Module
Core Data is the best and easiest way to develop your data modeland save your objects.
Location Services and Sensor Integrate to use all IOS features!
In-App-Purchase is the ideal solution to make money with "free" apps.
A good performance is important in every product. We teach you how to use Instruments to solve memory leaks and find performance bottlenecks.
Use Store boards (iOS5) to describe your user interface in a few clicks!
No sexy user interface without Quartz or Core Animation!

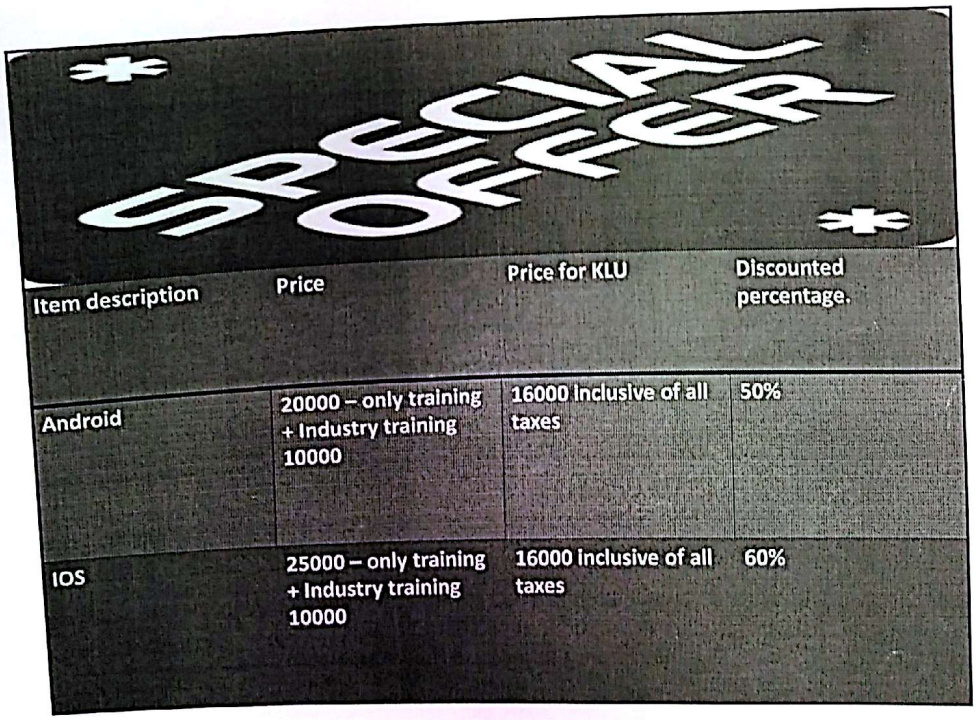

iOS 6
The world's most advanced mobile operating system.

Course Brief -6

Appstore Module
This module focuses on the release part of app development (very important to know your position in the App Store charts!). The topics of this module:
What are the requirements and restrictions implied by Apple
Create your own Release Checklist.
How to integrate iAd in your own app to create steady revenue.
How to use Sales and Trends in iTunes Connect
