## **Academic Staff College**

**26.10.2016 to 27.10.2017**

2-day orientation program on **“Pedagogy Methods”** Mr.K.Muralidhar, Lead Consultant, Wipro Technologies, Bangalore for all nominated faculty of KLU was organised by Academic Staff College on 26.10.2016.

Active learning instructional strategies include a wide range of activities that share the common element of —involving students in doing things and thinking about the things they are doing. Active learning instructional strategies can be created and used to engage students in

- (a) Thinking critically or creatively,
- (b) Speaking with a partner, in a small group, or with the entire class,
- (c) Expressing ideas through writing,
- (d) Exploring personal attitudes and values,
- (e) Giving and receiving feedback, and
- (f) Reflecting upon the learning process

It should also be noted that active learning instructional strategies can

- (a) Be completed by students either in-class or out-of-class,
- (b) Be done by students working either as individuals or in group, and
- (c) Be done either with or without the use of technology tools

When an instructor employs active learning strategies, he or she will typically will

Spend greater proportion of time helping students develop their understanding and skills (promoting deep learning) and a lesser proportion of time transmitting information (i.e., supporting surface learning). In addition, the instructor will provide opportunities for students to apply and demonstrate what they are learning and to receive immediate feedback from peers and/or the instructor.

Resource person explaining the pedagogy methods
