AugustMonth Report

Date: 31.08.2021

Topic:

APSSDC-CDAC Orientation Program

DESCRIPTION:

C-DAC Hyderabad has developed an online industrial training program for upskilling students of **B.E/B.Tech (CSE, IT and ECE) and other equivalent disciplines** titled "**C-DAC's HARMONIZED industry skilling program through Online Training(CHARiOT)**". As part of this program, **3 courses** on emerging technologies are currently being offered:

1. **Blockchain Technology and Application Development (BLEND)**
2. **Hardware Design & Development for Embedded Systems and Internet of Things (HANDS-ON)**
3. **Multilingual Cross Platform Mobile App Development using React Native Framework and Firebase (MENTOR)**

The aim of the program is to equip students with a practical understanding and exposure of emerging technologies as per industry processes and standards. These courses will be covered in an online mode for a duration of **4 weeks** and will be facilitated by R&D experts of C-DAC. The student will be required to undergo about 100 hours of conceptual and practical oriented training and will receive a C-DAC certificate on successful evaluation.
