

A Report on “Simplifying Engineering Graphics through AUTOCAD”

A two week workshop on “Simplifying Engineering Graphics through AUTOCAD” was organized by Academic Staff College from 20-09-2018 to 04-10-2018 (2 Weeks) by Mr. L.Ranganath and Mr.P.S.N.Venkat, Asst. Professor, BES-II department for the faculty members of ME and BES-II in F101 A

The objectives of the Program:

1. Importance of workshop
2. AutoCAD Installation procedure
3. Engineering Graphics introduction
4. Solving problem of Engineering Drawing using AutoCAD
5. Practice exercises

The Workshop started with boundless curiosity from all the audience, as the topic plays a key role in Mechanical industry. This Workshop benefits not only for class room teaching but also Research in all aspects. Started with importance and application of AutoCAD followed by practicing of commands for a week. Then a 5 days of practice session and couple of exams was the plan and executed successfully. The resource persons brought interest in audience by showing videos, presentations, Industrial problems which boosted the zeal of audience.

As a feedback from audience very good, need workshop like this more, they need more sessions in advancement topics like 3D which made the workshop a successful one.

The Participation Certificates have been distributed by Dr.N.Venkatram, Principal, FED and Dr.B.Siva Nagaiah, Vice Principal, ASC at the end of the Workshop.
