

**Department of Biotechnology, KLEF - VADDESWAREM**

**CIRCULAR**

**Date: 15-09-2021**

**Subject: From Bread to Beer: Celebrating the Power of Microbes (International Microbiology Day)**

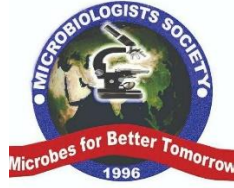

**Date and time: September 17, 2021; Time: 4.00 PM to 5:00 PM**

**Platform: C310 & C311 (Biotech Labs)**

**This is to inform that MICROBIOLOGISTS SOCIETY; INDIA STUDENT CHAPTER is organizing International Microbiology Day from Bread to Beer: Celebrating the Power of Microbes on the above mentioned date and time.**

**All students, faculty members, and interested persons are invited to attend the same.**

## **From Bread to Beer: Celebrating the Power of Microbes (International Microbiology Day)**

**17/09/2024**

International Microbiology Day was first established by the Spanish Society for Microbiology (SEM) in 2013. Since then, it has gained recognition globally, with microbiology societies, research institutions, and educational organizations participating in activities to mark the occasion.

International Microbiology Day is celebrated annually on September 17th to commemorate the achievements and contributions of microbiologists worldwide. This day serves as an opportunity to raise awareness about the importance of microbiology in various fields such as medicine, agriculture, environmental science, and biotechnology. It also highlights the significant role microorganisms play in sustaining life on Earth.

**Poster was released to bring awareness among students for participation in  
microbiology day**

International Microbiology Day aims to educate the public about the impact of microorganisms on human health, the environment, and industry. The day serves as a platform to promote microbiology research and innovation. It encourages scientists to share their latest findings, discuss emerging trends, and collaborate on interdisciplinary projects. Students have actively participated in petri art conducted in microbiology lab located at third floor of C-Block, KL University.

**Sample certificate and Petri art conducted in microbiology lab, C310**

International Microbiology Day serves as a reminder of the critical role that microorganisms play in shaping our world. Through education, outreach, and research, we can continue to harness the power of microorganisms for the benefit of society.
