Objective

This event greatly aided to increase the awareness among the students. Students have learnt various fitness exercises, food habits to be inculcated in their regular diet. This event helped students to clear their doubts regarding food and diseases through the interactive session held.

Description

Health is the primary aspect that thrives on the well-being of mankind. Maintaining health and Body Mass Index by following various norms, fitness activities, food habits and lifestyle changes plays a vital role and thereby promotes prosperity and health. Our team KLEF-CEA had conducted an event named SVASTYA. As a part of this event; we visited Z.P High school in Vaddeswaram and taught the students over there the necessity of hygiene, health, food habits to be included in daily diet, fitness awareness.

We had played an animated video for the kids for a simpler and joyful mode to create awareness regarding health and fitness. Few of our volunteers had performed certain primary fitness exercises in front of the students and explained its benefits and also made the students do some of the exercises.

Outcome

As a part of the event, some competitions were held among the students of the school and prizes were awarded for the winners. (Running race for boys of classes 4 and 5, skipping competition for girls of classes 4 and 5) Rewards were awarded also for the students who actively participated in the interactive session of health and fitness awareness.
