## "A REPORT ON AWARENESS ON POLLUTION - 05/01/2023 AT ATMAKURU VILLAGE"

CENTRE FOR EXTENSION ACTIVITIES

# AWARENESS ON POLLUTION

DATE : 05-01-2023

VENUE : ATMAKURU

[f](#) [t](#) [i](#) /klefcea

## **Objective**

Water pollution affects humans, animals and the environment. High consumption levels are linked to excess pollution, higher pollution levels cause more environmental and habitat damage. When land polluted waste and leach ate spread to groundwater or open waterways, it pollutes the water in the area and in most cases it spreads. Over one billion people worldwide lack access to healthy drinking water, and 5,000 die daily because of long term consumption of polluted water. Animals and the oceanic ecosystem are harmed by water pollution as well as humans. 1.1 billion Sea mammals are killed yearly because of the fact that pollution spreads to oceans polluting them. When the species a part of the oceanic ecosystem eat polluted waste or consume toxins deaths, illnesses and genetic mutation frequently occur.

## **Description**

People of developing countries with a lack of resources are affected a great deal more than developed countries. Developing countries don't contain enough resources and updated technology to clean and purify polluted water. The people of a developing country are left with no alternatives and need to drink polluted water in order to neglect dying of thirst. Babies are born premature and unhealthy as well. Water pollution levels are increasing to killer levels that need to immediately be prevented and over time decreased allowing nature to run its natural course.

Raising awareness about mobile addiction and promoting healthy digital habits are crucial steps towards mitigating its negative impact on individuals and society.

## **Proceedings of the Event:**

We team CEA went to Atmakuru Village at 01:45PM and then we divided into teams and conducted door to door survey. Then we told the people to not throw the waste in the water and we told them not to pollute the air by using bikes without any reason. The survey has been successful and everyone there has responded well. The interaction session was good and our students have learnt not to pollute the earth. Overall, the event concluded on a positive note, with the participants showing receptiveness to the information shared. We believe that we were successful in

creating awareness about the consequences of mobile addiction and equipping the students with practical tools to overcome it.

## Outcome

The event and survey has been successful and everyone there has responded well. The interaction session was good and our students have learnt not to pollute the earth.

### Details of the Event

<b>Name of the Event</b>	:	Awareness on Pollution
<b>Date of the Event</b>	:	05/01/2023
<b>Time</b>	:	01:50 pm to 4:00pm
<b>Venue</b>	:	Atmaukuru Village
<b>No. of Participants</b>	:	Students: 93, Faculty & Staff: 02
<b>No. of Beneficiaries</b>	:	450

## Event Photos:

The KLEF\_CEA team interacted with the individuals and explained about the pollution awareness.
