"Report on Increasing Awareness of Tissue Culture Among Students - Nutakki Village, 01/03/2023"

CENTRE FOR EXTENSION ACTIVITIES

TISSUE CULTURE

DATE: 01/03/2023

VENUE: Z.P. High School,
Nutakki

Objective

Team KLEF-CEA organized an event called "Tissue Culture" at Z.P. High School in Nutakki Village to raise awareness about tissue culture among students. Volunteers from the KLEF-CEA team arrived at Z.P. High School and were divided into groups. Each volunteer provided a concise explanation of the fundamentals of tissue culture and its historical background. To engage the students, the KLEF-CEA team asked them various questions related to tissue culture. A debate ensued between the KLEF-CEA volunteers and the Z.P. High School students, allowing them to address any last-minute concerns or queries about tissue culture. The event aimed to educate students about tissue culture and its practical applications for the benefit of the community. The event was highly successful, with everyone working together to share knowledge and information about tissue culture.

Description

A debate ensued between the KLEF-CEA volunteers and the Z.P. High School students, allowing them to address any last-minute concerns or queries about tissue culture.

The event aimed to educate students about tissue culture and its practical applications for the benefit of the community. The event was highly successful, with everyone working together to share knowledge and information about tissue culture. The event aimed to educate students about tissue culture and its practical applications for the benefit of the community. The event was highly successful, with everyone working together to share knowledge and information about tissue culture.

Proceedings of the Event:

The students of Z.P. High School responded positively and demonstrated excellent behaviour throughout the program. The event received widespread appreciation from all attendees, as it effectively enhanced understanding of tissue culture. The students of Z.P. High School acquired knowledge about the basics, history, and current applications of tissue culture. The event lasted for a significant duration, allowing for comprehensive coverage of the topic. The KLEF-CEA team's efforts in organizing the event were

commendable and greatly contributed to its success. Both the volunteers and students actively participated in discussions, fostering an engaging learning environment.

Outcome

The event successfully achieved its objective of increasing awareness and understanding of tissue culture among students. The students demonstrated a keen interest in the subject matter and actively engaged in the learning process. The event's positive outcome highlights the effectiveness of educational initiatives on complex scientific topics. The KLEF-CEA team's dedication and passion for spreading knowledge were evident throughout the event. The students expressed their gratitude for the opportunity to learn about tissue culture from experts in the field.

The event served as a platform for students to explore potential career paths related to tissue culture and biotechnology. The comprehensive explanation provided by the volunteers helped students grasp the intricate details of tissue culture. The event fostered an atmosphere of collaboration and learning, leaving a lasting impression on the participants. The success of the event will encourage future initiatives to promote scientific understanding among students.

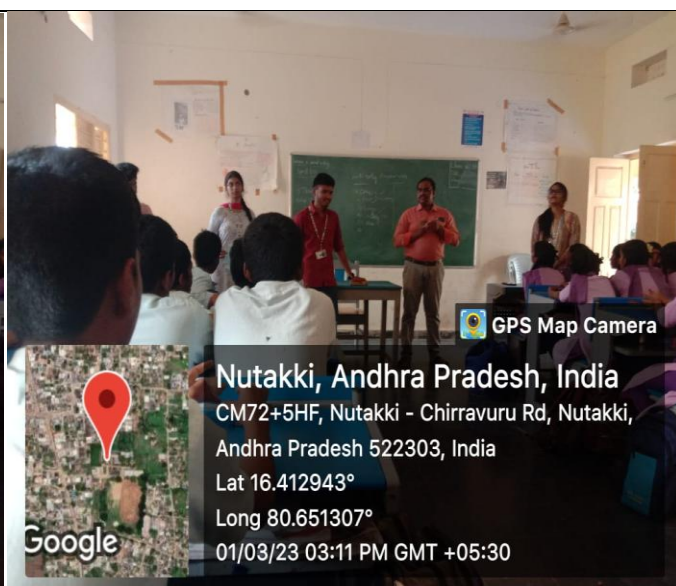

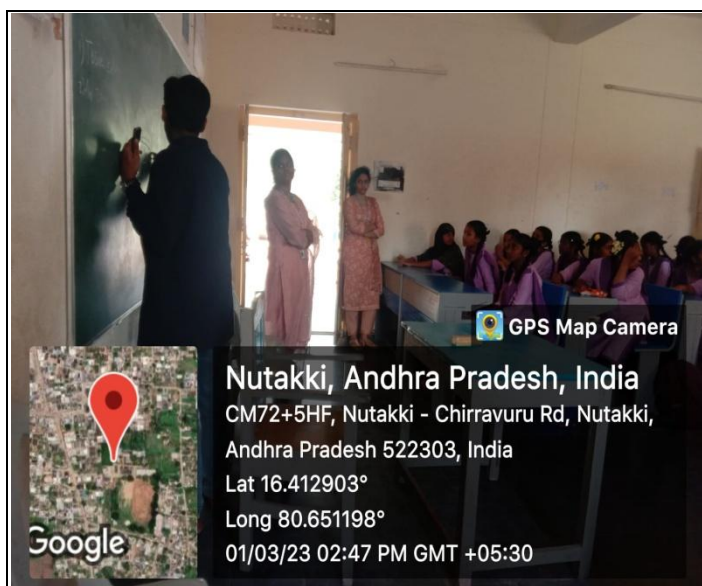

Details of the Event

Name of the Event	:	Tissue Culture
Date of the Event	:	01/03/2023
Time	:	01:40 pm to 4:00pm
Venue	:	Z.P. High School, Nutakki Village
No. of Participants	:	Students: 96, Faculty & Staff: 02
No. of Beneficiaries	:	250
