BLOOD DONATION CAMP

Description of the Camp

On 1st of October NCC 10 Andhra girls Bn, KLEF have Conducted a Camp i.e., **BLOOD DONATION CAMP**. This Camp was done at our KL University in Sac hall with the collaboration of NSS. 10 Andhra girls Bn Cadets have donated their blood in the camp. This camp was held till evening. All the officials of our college had actively participated in this camp. This event was Organized by Students affairs Dean, Sac Directors, NCC and NSS Coordinators.

Donating Blood is good for health. Donating blood helps lower the risk of cancer as the iron stores in the blood are maintained at healthy levels. When there is a reduced iron level in the body, it is linked to lower cancer risk. At the same time, when the iron is too low in the body, it leads to iron deficiency and other related health conditions.

Most we can donate about half a liter of blood safely, without health risks. Within a few days of a blood donation, your body replaces the lost fluids. And after two weeks, your body replaces the lost red blood cells.

Participants

SNo	Name	Reg No	Branch	Regimental No
1	K. Saameeriny	2000010081	BT	AP20SWA415206
2	J. Lakshmi Gayatri	2000620056	AgBsc Hon's	AP20SWA415208
