CIRCULAR

Sub: College of Agriculture - Awareness session on "Honey Bee Pests and their Management" - Reg.

We are pleased to inform you that Apiculture Club is organizing an awareness session on "Honey Bee Pests and their Management" to highlight the importance of protecting honey bees, which are crucial pollinators in our ecosystem. The session will be delivered through an engaging Power Point Presentation in the Entomology lab and will cover the various pests affecting honey bees, their impact on hives, and effective strategies for managing these pests.

APICULTURE CLUB

1. Name of the Event: Creating awareness about Honey bee pests
2. Date: 23-09-2024
3. Venue: Entomology Lab- S 408
4. No. of Students Participated: 30

5. Objectives of the event

Here are the objectives for an event focused on creating awareness about honey bee pests:

1. Educate members about common pests.
2. Promote prevention strategies and early detection.
3. Discuss treatment options and sustainable practices.
4. Provide resources and support for members.
5. Encourage community engagement and advocacy.
6. Facilitate networking and collaboration.
7. Empower members with knowledge and skills.

6. Description of the event

Title: "Bee Aware: Understanding Honey Bee Pests "

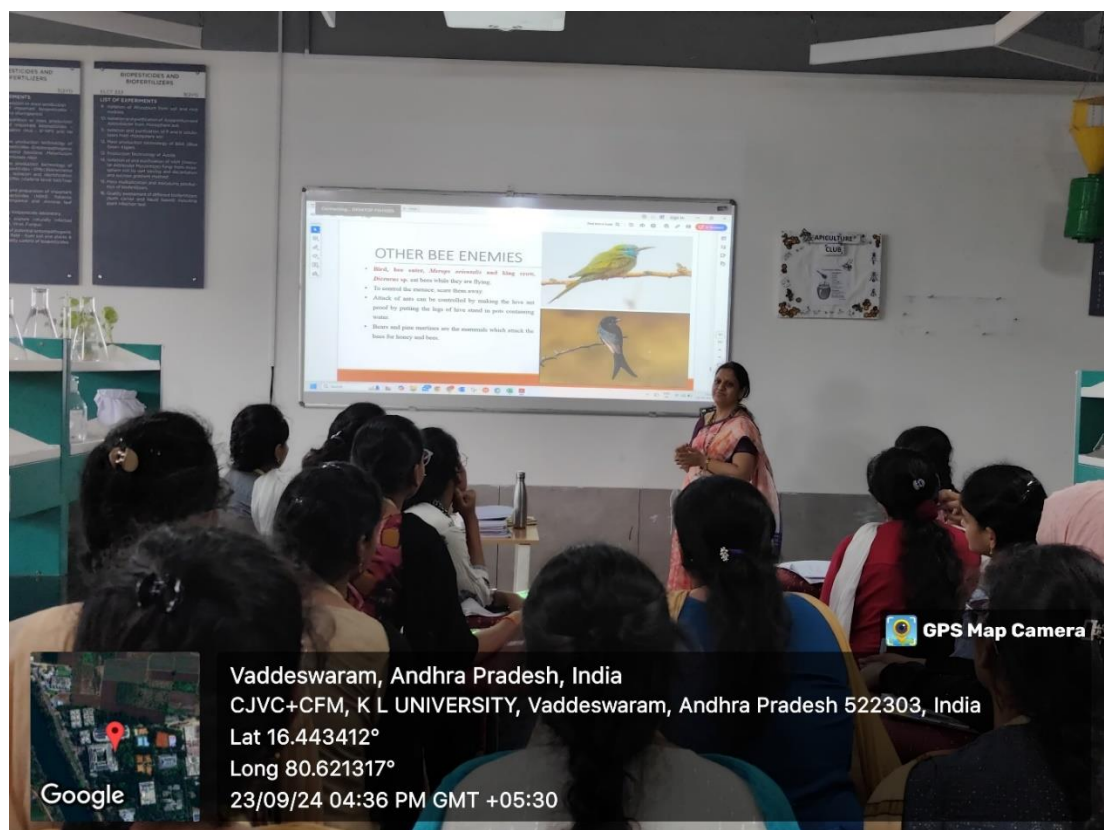

Description:

Our aim is to raise awareness among enthusiasts with the knowledge needed to safeguard the health of our precious pollinators. During this event, participants had the opportunity to learn about the various pests that pose threats to honey bee colonies through the identification, symptoms, and potential impacts of these issues on hive health. Through engaging presentation and interactive discussions attendees gained insights into preventative measures and early detection techniques crucial for maintaining thriving bee populations and to explore sustainable practices that promote hive resilience and reduce the reliance on chemical interventions. This event offers valuable information to protect and nurture these vital pollinators. Together, let's become stewards of bee health and advocates for a sustainable future. Bee there, bee informed, bee part of the solution!

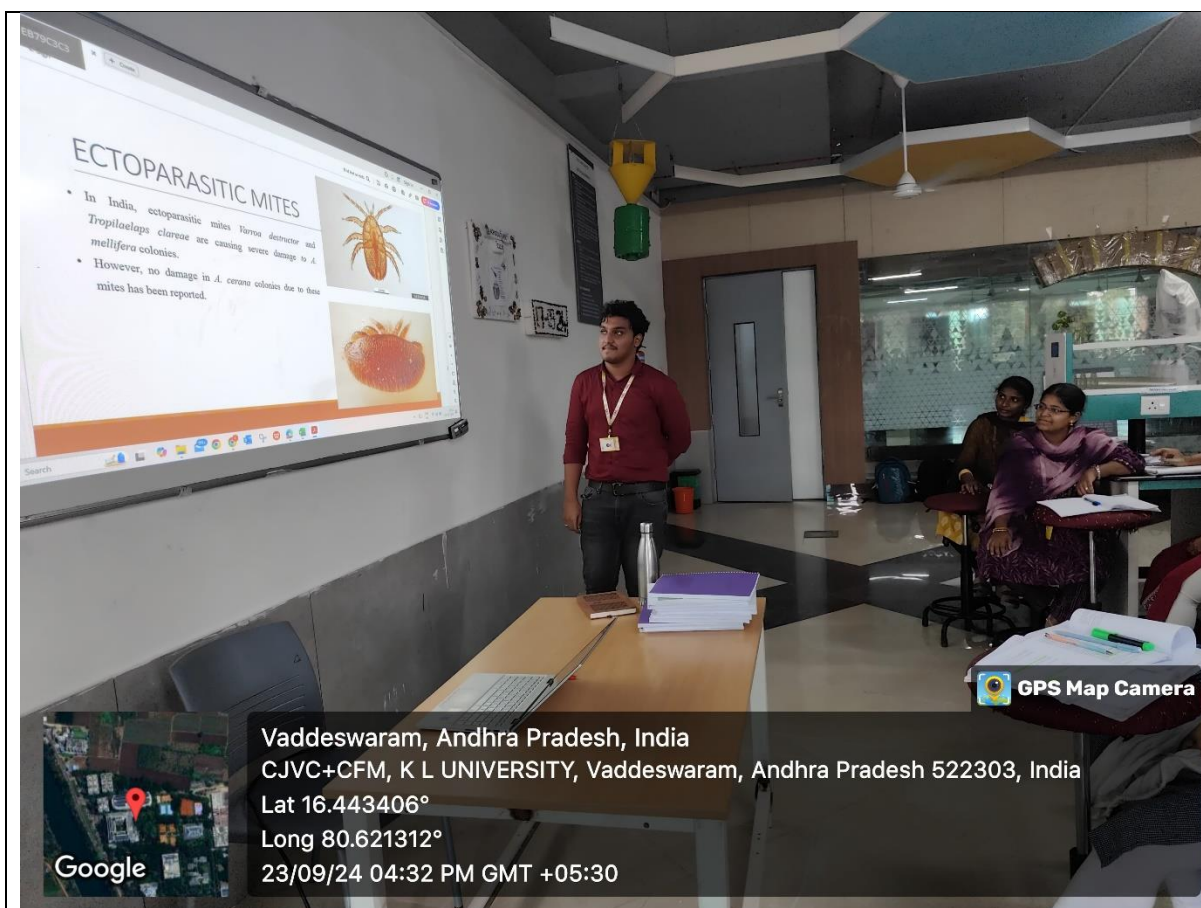

7. Outcome of the event

The event successfully increased knowledge about honey bee pests, empowered participants, fostered community engagement, and inspired advocacy for bee health and sustainable practices.
