KL COLLEGE OF AGRICULTURE

MycoMarvels MUSHROOM CULTIVATION CLUB

Name of the Event: Mushrooms and their importance in Daily life

Date: 26/10/2024

Venue: Agricultural Engineering Lab- S306

Number of students participated: 17 members

Objective of the event :

The main objective is create awareness on availability of different mushrooms in the nature and their nutritional value.

Description of the Event:

An event was conducted as part of an awareness program on mushrooms and their importance in daily life. The session highlighted the nutritional, medicinal, and environmental benefits of mushrooms, educating students on their role in health and sustainability. Attendees gained valuable insights into how mushrooms can be incorporated into their diet and everyday practices. Also gained the information regarding the different types of mushrooms available in the nature and their medicinal value.

Conclusion:

Participants acquired the knowledge that mushrooms are rich in nutrients, boost immunity, and support overall health, making them a valuable addition to daily diets. They also play a crucial role in sustainability by recycling organic matter and promoting environmental balance.
