

Dear Students,

We are pleased to inform that, **MOBIS India Limited.**, is going to conduct Campus recruitment drive on 9th and 10th Oct, 2018.

Eligible students list will be shared shortly.

About MOBIS:-

Mobis Technical Center in India(MTCI) ,Hyderabad works on various vehicle Infotainment, Mechatronics(Chassis, Safety, Vision Systems), CAE(CFD, Crash, Durability, EMI-EMC, and NVH). The focussed area will be on software development on many cutting edge technology projects like different generations of AVN (Audio Video Navigation) products, functional safety, AUTOSAR technologies based on brake, steering and airbag systems. Engineers are involved in various project phases from gathering requirements to validation phase of the Product Life cycle. Software Development projects executed at Mobis India Limited R&D Center, Hyderabad are appraised against International Standards such as CMMi, ISO-26262, IEC-61508. Working on the latest technologies in the Infotainment arena for the connectivity in the cars by using Linux Platform software.

MOBIS India Ltd was started in May, 2007 exclusively to take care of the Module supply and Parts & Accessory distribution business. MOBIS India Supplies Service parts and Genuine Accessory to roughly 1200,000 Hyundai cars plying on Indian roads, through a network of its own Logistic Centers operating in the 4 Metros and Dealer/Distributors spread across the country. Not only in domestic market but also for roughly around 250 M. Hyundai cars plying in overseas market, MOBIS exports Service Parts and Genuine Accessory from its exclusive logistics center located at Chennai. MOBIS would be able to significantly increase export revenues by leveraging the power of its globally integrated logistics network called “Mobis Global Network (MGN)”

Hyundai Mobis Global a 40 billion USD company, is the worldwide Strategic business partner of Hyundai Motor Company (HMC) & Kia Motor Company in the areas of Advanced Module supply for car manufacturing and handles Exclusive Service Parts distribution/sales for roughly 16 million Hyundai/Kia branded cars operating worldwide in 190 countries. In order to consolidate the business and cater to the increasing business requirement and to ensure enhanced customer satisfaction,
