About Infor

Infor is the third largest provider of enterprise applications and services, helping 90,000 customers in 200 countries improve operations, drive growth and quickly adapt to changes in business demands. More importantly, we have a growing momentum, earning the business of more than 2,000 new customers in the past year, with double digit sales growth over the last three quarters. We're engineered for Speed, with the vision to empower our customers to achieve speed as competitive differentiator and a platform to reimagine enterprise software. We make decisions quickly, in the best interests of our customers. Our eyes are on the future, not the past. If this sounds good to you, then read on.

We're a company unparalleled in application breadth, market experience, open technology, and global reach. The best part is, we're achieving our goals while holding fast to the principles on which we were founded: customer service, teamwork, value, integrity, and a total cost of ownership that is lower than what any of our competitors offer.

An outward-facing company. Of all the descriptions of our firm—global leader, the world's third largest provider of business software, the tenth largest software company in the world—this is perhaps the one that most accurately captures the culture of Infor. Infor is a dynamic, team-driven place to work, where solving business problems for customers is our top priority

Here is a brief profile of what you can expect from us:

- We offer a challenging, performance-driven environment where results are recognized and rewarded.
- We offer world-class solutions and professional services.
- We help our customers solve their most critical business challenges.
- We are profitable and growing rapidly around the world.
- We offer a competitive compensation package, a business casual environment, and exceptional employee benefits, and time-off programs
