### NATIONAL SERVICE SCHEME

**Event : Awareness on snake bites**

**Date : 27-10-2025**

**Place : Duggirala**

**KL COLLEGE OF AGRICULTURE  
KLEF, VADDESWARAM**

**Ref:**KLEF/KLCOA/IQAC/AQ5.8F

**Date: 25.10.2025**

**BRIEF REPORT ON NSS ACTIVITY CARRIED OUT IN MONTH OF  
OCTOBER 2025**

**AWARENESS PROGRAMME ON SNAKE BITES**

**Objective:**

The objective of organizing an awareness programme on snake bites is to educate rural communities about the causes, prevention and first aid measures related to snake bites. The initiative aims to dispel myths and misconceptions about snakes, promote safe practices during agricultural and outdoor activities and ensure timely and appropriate medical response in case of snake bites. Overall, the programme seeks to reduce snake bite incidents and fatalities by fostering awareness and preparedness among villagers.

**Description:**

As part of the rural health and safety initiative, the NSS Unit of the College of Agriculture, KL University, conducted an Awareness Programme on Snake Bites at Duggirala village, Guntur District, on Monday, 27th October 2025, informed Director of the College of Agriculture Dr. P. Ratnaprasad.

During the event, Dr. B. Balakrishna, Head of the College of Agriculture, highlighted the importance of educating the rural population about the dangers of snake bites, especially for farmers and laborers working in fields. He emphasized preventive measures such as wearing protective footwear, avoiding tall grass, using torches at night and maintaining cleanliness around houses and fields to keep snakes away.

NSS Programme Officers Dr. S. Pradeep Kumar and Dr. K. Vineel explained the correct first aid measures to be taken immediately after a snake bite. They advised villagers not to apply tight tourniquets, cut the wound, or attempt to suck out the venom, but instead to keep the patient calm and seek medical attention promptly. Volunteers demonstrated first aid techniques and distributed leaflets containing safety tips and emergency contact numbers.

Dr. K. R. S. Prasad, Head of Student Affairs, emphasized that most snake species are non-venomous and play an important role in controlling pests and maintaining ecological balance. He encouraged villagers not to kill snakes unnecessarily and to call trained personnel for safe rescue and relocation.

The efforts of the NSS volunteers and Field Coordinator P. Suresh were appreciated by KL University Vice-Chancellor Dr. G. Parthasaradhi Varma, Pro Vice-Chancellors Dr. A. V. S. Prasad, Dr. K. Rajashekhar Rao, Dr. N. Venkatram, Dean

Dr. Habibulla Khan, and NSS Programme Coordinator Dr. P. Sreekanth Reddy for their contribution to promoting rural health awareness and safety.

### **Outcome:**

The snake bite awareness programme effectively educated villagers on how to prevent snake bites and respond safely during emergencies. Participants learned practical safety measures to reduce encounters with snakes and gained confidence in applying correct first aid steps. The event also helped correct common myths about snake bites and encouraged community cooperation in maintaining safe surroundings. The enthusiasm and participation of the villagers reflected the success of the awareness drive.

### **Impact on Society:**

The awareness programme made a significant impact by improving public understanding of snake bite prevention and management. Villagers became more conscious about adopting safe agricultural and household practices, ensuring a reduction in snake bite risks. The initiative also promoted coexistence with wildlife and enhanced the community's ability to respond calmly and correctly during emergencies. Overall, the event strengthened rural health awareness and safety preparedness, contributing to a safer and more informed society.
