

Alumni Guest Lecture Report

Guest Lecture by

Shaik MOHAMMAD ANJUM

on (19th July, 2023)

working as

Research Associate - University of Malaya| Malaysia

Mr. Mohammad Anjum of Y17 Batch (KLU student) has visited our university on 19th July, 2023. A guest lecture was arranged for second- and third-year students. He introduced himself and explained how he got opportunity to explore on genetic modules. He further explained about various types of sectors and about skill sets needed for a student who wish to choose genetics field. A total of 124 students along with the HoD, Deputy HoD and faculty members attended the session, organised in C510 class room and C517 and C518 laboratory. The talk was highly informative and useful to the students.

He explored the possible disciplines of life sciences and gave tips for applying internship program across India. He has encouraged the students to involve themselves more into skilling activities and to get extensive industrial exposure in the form of internship. He also explained the students about the importance of GENETIC DEVELOPMENT and its role in present scenario. He has guided the students how to get success in higher studies and opportunities in the field of health care. His lecture was very much informative and inspiring to the aspiring students.

Left: Expert talk by Mr.Anjum on 19th July, 2023 at 2:30PM for Biotechnology students on genetic development. **Right:** Interaction of students with the guest at Biochemistry Lab.

His advice to the students was to make best use of the exemplary facilities available here at KLU, so that they can transform themselves into employable commodities at the end of their academic program, later the guest was invited by Head of the Department, KL University. He interacted with HoD and had a discussion over the involvement of Anjum for improvement and mentorship for active students. The Alumni Guest Lecture on Biological Sciences proved to be an insightful and inspiring event. The speaker's profound knowledge and passion for their field left a lasting impact on the audience. The lecture successfully highlighted the rapid progress in biological sciences and its immense potential to shape the future of healthcare, environment, and beyond. The event concluded with a sense of enthusiasm among the students to pursue their own contributions to the field of biological sciences. Department of Biotechnology felicitated Mr.Anjum and thanked for accepting our invitation. The university expresses its gratitude to Mr.Anjum for their valuable time and willingness to share their expertise with the academic community.
