## **Empowering Wellness: World Health Day at KL University**

**07/04/2023**

**Venue:** FED Block, KL University

Department of Biotechnology, KLEF, Vaddeswaram, in association with the Microbiologists Society of India (Student Chapter), organized World Health Day celebrations under the global theme “Empowering Wellness: World Health Day.” The event aimed to promote physical and mental well-being among students, faculty, and staff through awareness and practical engagement.

**Circulated flyers in the campus and designed posters to create awareness among the university students and faculty**

Free health screenings and blood typing sessions were conducted for first-year students, enabling them to understand their health parameters and blood group compatibility. Informative flyers and posters were distributed across the campus to encourage participation and promote healthy lifestyle practices. Over 70 participants enthusiastically joined the initiative. Faculty members delivered insightful talks on the importance of menstrual hygiene awareness, health awareness, and environmental wellness. The campaign successfully fostered a culture of responsibility toward persona land community health. The Department of Biotechnology expresses gratitude to all participants and contributors for making this wellness drive a success.
