Awareness on Usage of Internet in Villages

To create awareness among the people in the village about internet CEA team members visited PEDDAPALEM. These days there is a great deal for internet. Everyone are using internet. Internet has changed our lives. The Internet provides us useful data, information, and knowledge for the personal, social and economic development.

Everyone should have knowledge about the new technologies and new applications that will be helpful in their daily life. So to access the applications they should know the usage of internet. Our Faculty In-Charge Mr. Kalaipriyan had played a vital role in explaining the village residents about the importance of usage of internet.

Our students explained the villagers how the to use internet like how to Google about usage of different pesticides and also how to know about the different prices of required items for farming and agriculture. Apps that are useful for agriculture like PLANTIX, AGRISYNC, Grain Truck Pluse etc., were explained to them.

Event Photos:

Students who participated in creating awareness on the Internet usages.

At the end of this program people in the village were able to know the importance of internet and how to use it in different aspects in their daily life. and also the president of the vilage apreciatd our CEA team for doing this which is going to be very helpful for them.

People who were there in village received team members very well and they are very interested to listen what our team members are saying and to learn the things which they were showing .they were happy that learning this is very helpful to them in their daily life.

A group of 53 stundets have participated in the event to create the awariness on usage of internet in the villages along 3 faculty members
