

# **REPORT**

## **ACADEMIC YEAR 2013-2014:**

Date: 21/07/2013

Venue: Sai Baba Ashram, KhederesweraPeta, Vijayawada

Beneficiary: Little children who go to different government schools

## **SAI BABA CHILDREN ORPHANAGE**

This project aims in encouraging their enthusiasm and creativity in the children by organizing different extra-curricular activities.

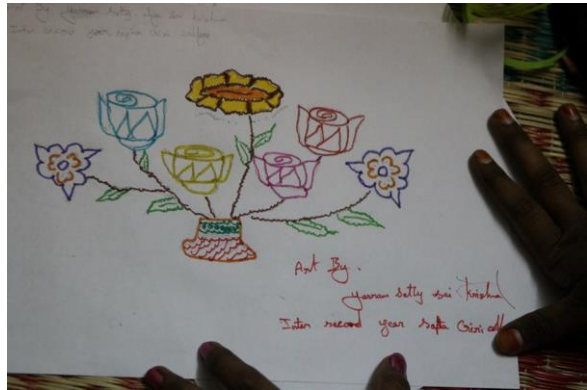

There are 22 children of various age groups who are staying in the ashram. The event started with a small introductory session followed by a drawing competition. Programs like dancing, singing and many games were conducted to children in association with volunteers. The children showed great interest in these activities and enjoyed them a lot which was reflected through smiles on their faces.

The winners of the drawing competition were given water color sets as a token of appreciation. The event ended with the distribution of notebooks, chocolates, biscuits and pencil boxes to all the children.

Overall, the event was a great success and volunteers had a great time with the children.

**Awareness of Traffic Rules**

**Beneficiary:** By this event the children of the government school came to know the rules and regulations of the traffic. Here the event helps the children to know how the traffic is managed and how police is controlling the traffic and also how to follow traffic rules by walking, driving and moving on the roads .They also came to know how accidents are occurring due to carelessness of pedestrians .

**Web Description:** The event was held at Sri Kallam Venkata Reddy ZPHS. The inspector of Tadepalli gave his support by explaining the traffic rules and creating the awareness of the traffic to the children. He explained the traffic rules clearly which are useful to them. He also explained various factors which are responsible for road accidents.

**HELPING IN PRIMARY EDUCATION IN SURROUNDING  
RURAL AREAS FOR CHILDREN AND WOMEN**

These days where ever we go, where ever we stay, where ever we need to survive we basically need to know about what is happening around us and what is going on around .all these can be known only when each and every child will learn things from their childhood. in order to survive in this technological world children should know and should have minimum knowledge about what is happening and should have primary education which helps them to survive anywhere on their own .

Here we members of “CEA” are ready to help the rural areas to get a better education regarding the present day technology and to get a basic and primary education for them which will make tomorrow's world .this is a step taken to develop the children and women in rural areas to develop themselves and trying to develop them in such a way that they are ready to compete with the present days competitive world.
