A report on “Vedic Maths” on 15/10/2019 at Tadepalli Village

Description of the Event:

Mathematics! It is a subject that most children are scared of. Students are usually perplexed in solving those mathematical variables, equations, formulae, etc. They don't show interest in learning those math concepts which are going over their head, but not until if we can provide the joy of learning. KLEF-CEA has come up with an event on "Vedic Maths" which will teach the fun and easy math tricks to the students of V, VI and VII standards. The event was organized at Ravindra Bharati School, Tadepalli.

The students of V, VI and VII standards of Ravindra Bharati School, Tadepalli were taught about Vedic Maths. We have asked them to solve some problems. Children were more interested in solving. But solving them took some time. To overcome that we taught some tricks to solve them faster within no time. Totally 6 Topics were taught by our team .And also, in the end, we have divided the children into groups and a test was also conducted to them. Everyone did their best to answer, some of them at least tried. It was an interactive session where the students have participated with great enthusiasm. The responses from children are good. We have selected the best of 12 students and prizes were given to them.

Benefits:

1. Leads to improvement in mental ability, sharpness, creativity and intelligence.
2. Problems are reduced to one-line answers.
3. Reduces dependence on calculators.
4. Vedic Math is complementary to regular Math taught in schools.
5. Students learning Vedic Math excel at school.

Details of the Event

Name of the Event	:	Vedic Maths
Date of the Event	:	15/10/2019
Time	:	01:30 am to 04:15pm
Venue	:	Z P H School,Tadepalli Village
No. of Participants	:	Students: 81, Faculty & Staff: 02
No. of Benefited	:	200

Event Photos:

Vedic mathematics is a system of mathematical techniques that originates from ancient Indian scriptures called the Vedas. These techniques are designed to simplify complex mathematical calculations and problem-solving. While Vedic mathematics may not replace traditional methods entirely, it can certainly be a valuable addition to your mathematical toolkit, offering alternative ways to approach and solve mathematical problems.
