### **A report on “Cyber Crime Awareness” 23/09/2023 at Mangalagiri Town**

#### **Details of the Event:**

Date of the Event	:	23-09-2023
Name of the Event	:	Cyber Crime Awareness
No. of Hours	:	10:30am To 12:30pm
Venue of the Event	:	Mangalagiri
No. of Participants	:	Students: 60, Faculty: 02
No. of Beneficiaries	:	482

**Objective:**

The usage of information technology is increasing at a rapid rate. It has made it easier for everyone to easily access the internet, increasing the number of internet users. Also, technology is not constant, and it is continuously evolving. It makes it very difficult for end-users to be aware of measures to protect their data privacy.

**Description:**

Individuals, as well as companies, rely on IT systems. But they are not aware of the cyber risks, ways to handle them, and how to protect themselves from such risks. The primary purpose of a cyber awareness program is to educate people about possible cyber threats and avoid a data breach. However, no method can guarantee complete security from the attacks but can help reduce their occurrence and equip end-users and professionals with practical knowledge to mitigate such risks.

**Procedure of the event:**

KLEF - CEA has conducted Cyber Crime Awareness programme Z.P. High School at Atmakuru Village on 23-09-2023.

Cyber security awareness means knowing about various cyber threats, the ability to detect potential threats, and taking measures to mitigate their effect to protect your digital assets.

Team CEA went to Z.P. High School at Atmakuru village to give the students the threats regarding cyber-crime. The students also listened to our team carefully to get to know what is happening in the society.

**Outcomes:**

The event has been successful and everyone there has responded well. The interaction session was good and our students told them how to use the online in the correct manner.
