Details of the Event:

Date of the Event	:	01-10-2023
Name of the Event	:	Swatchata Hi Seva
No. of Hours	:	10:30 AM To 12.30PM
Venue of the Event	:	Revendrapadu
No. of Participants	:	Students:86, Faculty: 03

Objective:

The main objective of the Swachata HiSeva event is to promote cleanliness, hygiene, and environmental awareness at Revendrapadu Village by conducting a dedicated cleaning program for Anganwadis and the removal of plastic waste. Our goal is to ensure that these vital childcare centers are clean, safe, and free from plastic pollution, thereby creating a healthier environment for the children and community at large.

Description:

The Swachata Hi Seva event, organized by KLEF CEA, is a dynamic and community-driven initiative poised to make a substantial impact on the cleanliness and plastic waste challenges faced by Revendrapadu Village Anganwadi's. Set to take place on the 1st of October, 2023, this event is a testament to the collective strength and commitment of the community.

At its core, this event is all about transforming the village communities into a cleaner, healthier, and more environmentally conscious place. It places a special emphasis on Anganwadis, recognizing their pivotal role in nurturing the youngest members of the community. By cleaning and decluttering these vital centers, we aim to provide a safer and more inspiring space for the children who attend them.

Our vision extends beyond just a one-day cleanup effort. It's all about fostering a sense of belonging and responsibility among the villagers. We believe that when community members come together, united by a shared goal of improving the environment, long-lasting change becomes possible.

Volunteers from all walks of life, including dedicated students, parents, and passionate KLEF CEA supporters converge to make a substantial impact on the Anganwadis for the environmental conscious place. Armed with brooms, mops, trash bags, and the determination to make a difference, they will undertake the task of cleaning and sanitizing these essential centers from top to bottom.

One of the key focuses of the event is the removal of plastic waste and to improve hygiene & cleanliness in anganwadis. Volunteers will diligently collect, segregate, and prepare plastic items for proper disposal or recycling. This not only contributes to a cleaner environment but also raises awareness about the harmful effects of plastic pollution.

Preceding the event, a comprehensive awareness campaign will be launched within the village. Informational pamphlets will be distributed, highlighting the purpose and objectives of the Swachata Hi Seva event. It is our hope that these efforts will inspire community members to join us in our mission and be part of the solution.

The impact of the Swachata HiSeva event will be evaluated after its conclusion. This evaluation will consider factors such as the level of cleanliness achieved, the reduction in plastic waste, and the degree of community engagement. Feedback from volunteers and community members will be actively sought to identify areas for further improvement and continued action.

Ultimately, the expected outcomes of this event are manifold. Revendrapadu Village can anticipate cleaner, safer Anganwadis that provide a nurturing environment for the children. The reduction in plastic waste will contribute to a cleaner and more eco-friendly village. Moreover, the event will spark greater community awareness and participation in maintaining cleanliness and responsible plastic usage.

In conclusion, the Swachata HiSeva event is not just a one-time endeavor; it's a symbol of unity, shared responsibility, and the desire for a better future. It is a testament to the power of community-driven initiatives and the belief that positive change begins at home. On October 1, 2023, Reverdrapadu Village will take a significant step towards a cleaner, healthier, and more sustainable environment in the future.

Procedure of the Event:

1. Preparation:

- Identify all Anganwadis in the Revendrapadu Village that require cleaning and plastic removal.
- Mobilize the volunteers from the local community, including students, parents, KLEF CEA volunteers, and others who are enthusiastic and passionate to participate.
- Procure necessary cleaning supplies, including brooms, mops, trash bags, recycling bins, etc...

2. Awareness and Education:

- ❖ Conduct awareness sessions in the village to educate the community about the importance of cleanliness and plastic waste management.
- ❖ Distribute informational pamphlets highlighting the event's purpose and objectives.

3. Cleaning Program:

- On October 1, 2023, volunteers will assemble at the designated Anganwadi centers.
- Teams will be formed to clean and sanitize the premises, including classrooms, play areas, and surroundings.
- Plastic waste removal will be prioritized, with volunteers collecting and segregating plastic items for recycling or proper disposal.

4. Community Participation:

- Engage with parents and caregivers of children attending Anganwadis, encouraging their involvement in maintaining cleanliness.
- Share information on responsible plastic usage and the detrimental effects of plastic pollution.

5. Post-Event Assessment:

- Evaluate the success of the event in terms of cleanliness improvement and plastic waste reduction.
- Gather feedback from volunteers and community members to identify areas for continued improvement.

Outcome:

1. Cleaner and Safer Anganwadis: Improved cleanliness and hygiene standards in Anganwadis, created a safer environment for children for their development.
2. Plastic Waste Reduction: A significant reduction in plastic waste in and around Anganwadis, contributed to a cleaner and eco-friendly village.
3. Community Engagement: Increased community awareness and participation in maintaining cleanliness and managing plastic waste.
4. Educational Impact: Enhanced knowledge about the importance of cleanliness, responsible plastic usage and the effects of using the excessive plastics, and provided measures to prevent the plastic. Also enhanced the children about the 3R's of the environment (I.e. Reduce, Reuse, & Recycle).

This Swachata Hi Seva event aims to make a positive and sustainable impact on Revendrapadu Village by ensuring that Anganwadis are clean, safe, and free from plastic pollution, promoting a healthier environment for its youngest residents.
