A report on “RAIN WATER HARVESTING” Door to Door Campaign on 11/09/2025 at Veerulapalem Village

Details of the Event:

Date of the Event	:	11-09-2025
Name of the Event	:	Rain Water Harvesting
No. of Hours	:	01:30 PM To 04: 30 PM
Venue of the Event	:	door to door campaign, Veerulapalem Village
No. of Participants	:	Students: 80, Faculty: 02
No. of Beneficiaries	:	892

Description of the Event:

KLEF – Centre for Extension Activities (CEA) organised a door-to-door campaign on “Rain Water Harvesting” at Veerula Palem Village on 11th September 2025 with the objective of creating awareness about the importance of conserving water and adopting sustainable practices. Volunteers actively interacted with the villagers, explaining simple and effective techniques of rainwater harvesting such as rooftop collection and ground water recharge methods. Informative pamphlets and demonstrations were used to highlight the long-term benefits of water conservation for agriculture, household use, and future generations. The campaign encouraged the community to adopt these practices to ensure the sustainable management of water resources.

Objectives:

- ❖ To create awareness among villagers about the importance of rainwater harvesting for sustainable water management.
- ❖ To educate the community on simple and cost-effective techniques such as rooftop rainwater collection and groundwater recharge.
- ❖ To encourage households to adopt rainwater harvesting practices for agriculture, domestic use, and long-term water security.
- ❖ To reduce dependency on external water sources by promoting self-sufficiency through local water conservation methods.
- ❖ To instill a sense of responsibility in conserving natural resources for future generations.

Outcome:

The door-to-door campaign on “Rain Water Harvesting” at Veerula Palem Village successfully raised awareness among the local community about the need for water conservation and sustainable practices. Many villagers showed keen interest in implementing simple harvesting methods like rooftop collection and soak pits, while some expressed their willingness to adopt these techniques in their households. The campaign

not only enhanced knowledge but also motivated the community to take proactive steps toward conserving rainwater, ensuring better water availability for agriculture and daily needs in the future.

Impact of the Society:

The door-to-door campaign on “Rain Water Harvesting” at Veerula Palem Village created a positive impact on the society by promoting a culture of water conservation and sustainable living. The initiative encouraged villagers to recognize the importance of preserving rainwater as a valuable resource, leading to increased awareness about practical harvesting methods. This collective understanding is expected to reduce water scarcity in the long run, improve agricultural productivity, and enhance the quality of life within the community. By fostering environmental responsibility, the campaign contributed to building a more resilient and self-reliant society.
