#### Details of the Event:

Date of the Event	:	20-02-2026
Name of the Event	:	Sensors Awareness
No. of Hours	:	01:30 PM To 04: 30 PM
Venue of the Event	:	Pedavadlapudi village
No. of Participants	:	Students: 84, Faculty: 02
No. of Beneficiaries	:	287

**Description of the Event:**

KLEF–Centre for Extension Activities (CEA), has conducted, a Sensor Awareness Program was conducted at Z.P. High School, Pedavadlapudi Village, on 20-02-2026 to educate school students about sensors and their importance in daily life. Sensors are widely used in smart devices, agriculture, healthcare, security systems, and environmental monitoring.

The main aim of the program was to introduce students of 6th, 7th, 8th, and 9th classes to basic sensor concepts in a simple and understandable manner. The event witnessed active participation from students and teachers, making the programme informative, engaging, and impactful in encouraging them for understanding about sensors.

**Objectives:**

- ❖ To create awareness about sensors among school students.
- ❖ To explain different types of sensors and their uses.
- ❖ To demonstrate real-life applications of sensors.
- ❖ To motivate students towards science and technology.
- ❖ To improve technical knowledge at school level.

**Outcome:**

The sensor awareness program conducted at Z.P. High School, Pedavadlapudi Village resulted in a significant enhancement of students' knowledge and interest in technology. The session helped in increasing awareness about sensors and their role in everyday life, while also improving students' understanding of basic technological concepts. Students actively participated and showed great curiosity to learn more about how sensors function and where they are used. Overall, the program enabled students to connect theoretical knowledge with real-life applications, making the learning experience both practical and engaging.

## Impact of the Society:

The Sensor Awareness Program conducted at ZPHS High School, Pedavadlapudi Village had a positive impact on the students and society. The program helped students understand the importance of sensors and their applications in daily life.

Students learned how sensors are used in mobile phones, automatic street lights, agriculture, security systems, and smart homes. This knowledge helped them connect technology with real-life situations.

The program also motivated students to develop interest in science, engineering, and technology. It encouraged young students from a rural area to think about future innovations and technical education.
