A report on door to door campaign “AWARENESS ON SANITATION & HYGIENE” 28/07/2026 at Navvuluru Village

The poster is titled "Awareness on SANITATION & HYGIENE" in large, bold letters. Below the title is the slogan "CLEAN HABITS, HEALTHY LIFE!". It features an illustration of three people (two men and one woman) engaged in cleaning activities: one is sweeping, one is washing a bucket, and one is using a green trash bin labeled "USE ME". The poster includes logos for KL (Koneru Lakshmaiah Education Foundation) and CEA (Center for Extension Activities). A central circular graphic contains the text "A CLEAN COMMUNITY IS A HEALTHY COMMUNITY". To the left, it states "Good sanitation and hygiene practices are the foundation of a healthy individual and a prosperous community." and provides the event details: DATE: 28/07/2026 and VENUE: Navvuluru Village. To the right, there is a list of six key messages with corresponding icons: 1. WASH YOUR HANDS REGULARLY (hand icon), 2. USE CLEAN TOILETS (toilet icon), 3. KEEP SURROUNDINGS CLEAN (trash bin icon), 4. SAFE WATER, BETTER HEALTH (water drop icon), 5. GOOD HYGIENE, BETTER LIFE (group of people icon), and 6. TOGETHER, LET'S BUILD A CLEAN & HEALTHY VILLAGE! (group of people icon). At the bottom, there are five icons with their respective messages: WASH HANDS WITH SOAP, USE CLEAN TOILETS, DON'T LITTER, KEEP IT NEAT, SAVE WATER, SAVE LIFE, and HEALTHY HABITS, HAPPY COMMUNITY. The poster concludes with the slogan "Clean Surroundings, Healthy Future" and social media icons for YouTube, Email, Facebook, Twitter, Instagram, and Telegram, along with the handle /klefcea.

Details of the Event:

Date of the Event	:	28-07-2026
Name of the Event	:	Awareness on Sanitation & Hygiene
No. of Hours	:	10:00 AM To 12: 30 PM
Venue of the Event	:	Navvuluru Village
No. of Participants	:	Students: 45, Faculty: 02
No. of Beneficiaries	:	582

Description of the Event:

KLEF–Centre for Extension Activities (CEA) in association with the Departments of CSIT & IOT, jointly organized a Door-to-Door Campaign on "Awareness on Sanitation & Hygiene" on 28/07/2026 at Navvuluru Village. The programme was conducted to create awareness among villagers about the importance of maintaining cleanliness, practicing personal hygiene, and ensuring a healthy living environment. Faculty members and CEA student volunteers visited households, interacted with residents, and explained the significance of regular handwashing, proper waste disposal, safe drinking water, toilet usage, and maintaining clean surroundings. Informative discussions encouraged the community to adopt hygienic practices and prevent the spread of communicable diseases. The campaign witnessed active participation from the villagers, making it an effective community outreach initiative.

Objectives:

The primary objective of the campaign was to educate rural residents on the importance of sanitation and personal hygiene for improving public health and quality of life. It aimed to promote healthy habits such as regular hand washing, proper waste management, safe drinking water practices, and the use of sanitary toilets. The programme also sought to raise awareness about preventing waterborne and communicable diseases through cleanliness and environmental sanitation. Another important objective was to strengthen community participation in maintaining a clean and healthy village while instilling social responsibility among student volunteers through meaningful extension activities.

Outcome:

The campaign successfully enhanced awareness among the villagers regarding the importance of sanitation and hygiene in daily life. Residents actively interacted with the volunteers, clarified their doubts, and expressed their willingness to adopt improved hygienic practices. The programme encouraged families to maintain clean surroundings,

dispose of waste responsibly, and practice good personal hygiene to prevent diseases. It also provided CEA student volunteers with valuable exposure to community engagement, communication, and public health awareness activities, thereby strengthening their sense of social responsibility.

Impact on Society:

The awareness campaign contributed to promoting a healthier and cleaner community by motivating villagers to adopt sustainable sanitation and hygiene practices. Increased awareness is expected to reduce the risk of diseases caused by poor sanitation and improve the overall health and well-being of the community. The initiative strengthened the relationship between KLEF and the local community by demonstrating the University's commitment to social service and rural development. Such programmes inspire collective responsibility toward cleanliness, environmental protection, and public health, thereby contributing to the long-term development of a healthy and sustainable society.
