Guest Lecture Report on “Cyber Security and Ethical Hacking”

Mr. Pranav, Software Engineer of Deloitte has delivered an inspirational lecture on “cyber security and ethical hacking” in online mode Microsoft Teams for III B.Tech students on 9th April, 2021. He started with introduction of ethical hacking, its importance and simple measures an individual can take to prevent his/her data from being hacked. Then, he briefly explained about frauds, the reason they occur, and the ways in which we can check whether our data has been leaked or not. This i followed by a demonstration of a SQL injection attack over different sites. The session ended with a brief explanation on virtualization, and a live demonstration of hacking a mobile phone using virtual box, the required commands and the terminal.

The lecture provided various insights on career opportunities for the computer science graduates and emphasized the significance of strong communication skills apart from academic merit of the student in their career path.

At last Mrs. P. Jhansi Rani , Alumni Coordinator , CSE Department, thanked **Mr Pranav**, for his valuable time and motivational words.
