### Orders of the Hon'ble Vice-Chancellor

#### CIRCULAR

Sub: Organizing event “Webinar on Phishing attacks and solutions ” for the students of Computer Science and Engineering, of Vaddeswaram Campus of KLEF - - Reg.

Ref: Letter received from Dr.T.PAVAN KUMAR, HOD-CSE, K L UNIVERSITY.

This is to inform that the Department of Computer Science and Engineering, KLEF, is Organizing a “Webinar on Phishing attacks and solutions” for the students of Computer SCIENCE AND Engineering, Vaddeswaram Campus of KLEF on “ 18.12.2020 ”, as detailed below:

Event Name : Webinar on Phishing attacks and solutions

Date : 18.12.2020

Venue : ONLINE

ALL the Students of CSE, are invited to attend this Program.

Dy-HOS's & Year Professor in charges are requested to bring this information to the attention of all CSE students and encourage them to participate in this program.

To

All the Students (By Mail)

All CSE Faculty (by MAIL)

Mail to: Principal / Coordinator

Mail to: All HoDs

Mail to: All Dy. HoDs / All Alt. HoDs

Mail to: Student Affairs / Student Welfare / Examinations

Mail to: Librarian

Mail to: Webmaster-Mr.LV

Mail to: Mr. Raja Sekhar, Emp. No. 2482, Jr. Network Administrator (E-mail: [rajasekhar\\_syte@kluniversity.in](mailto:rajasekhar_syte@kluniversity.in))

# Webinar on "Phishing attacks and solutions"

Dates: 18.12.2020

KLEF, Computer Science and Engineering Department is primarily aimed at encouraging students to learn and pursue their talents and abilities. FOCUS, the Student Association of CSE department initiated **Phishing attacks and solutions(Webinar)**.

Webinar	Probable Company to Collaborate	Session Topics	Participants Count(Approx)
Phishing attacks and solutions	Ms.Tanu Srivastava: Advisory Consultant IBM	Phishing attacks and solutions	169

Phishing persuades you to take an action that gives a scammer access to your device, accounts, or personal information. By pretending to be a person or organization you trust, they can more easily infect you with malware or steal your credit card information.

In other words, these social engineering schemes “bait” you with trust to get your valuable information. This could be anything from a social media login, to your entire identity via your social security number.

These schemes may urge you to open an attachment, follow a link, fill out a form, or reply with personal info. By that logic, you must be on guard at all times which can be exhausting.

The most common scenario is as follows:

You open your email and suddenly an alert from your bank appears in your inbox. When you click the link in the email, you are taken to a webpage that looks, more or less, like your bank. Here’s the catch: this site is actually designed to steal your information. The alert will say there is a problem with your account and ask you to confirm your login and password.

After entering your credentials on the page that appears, you are usually sent to the actual institution to enter your information a second time. By steering you to the legitimate institution, you don't immediately realize your information was stolen.

These threats can get very elaborate and show up all types of communication, even phone calls. The danger of phishing is that it can deceive anyone that isn’t skeptical of smaller details. To help you guard yourself without becoming paranoid, let’s unpack how phishing attacks work.

## Gallery:

# Examples of Phishing Attacks

1. The sender is not a valid valdosta.edu address, but rather a @pugmarks.com address. The name is also a generic "Admin Team" which does not match up with the email address.
2. The subject line is in all capitals and using multiple exclamation marks trying to get your attention.
3. **Hovering your mouse over the link**, you can see that this is not a valid valdosta.edu address, but rather an external site trying to steal your credentials or install malicious software.

Fig: The Expert have shown various phishing attacks in real scenario 18.12.2020
