

# THRUSANG-14

A National Level Technical Fest

## “WORKSHOP ON ANDROID”

**THRUSANG-14**, A two day National Level Technical Fest was organized by the students of Electronics and Computer engineering Department under the roof of a noteworthy student association called **ESSENCE** on 26<sup>th</sup> and 27<sup>th</sup> of September. THRUSANG this year has come up with a theme “PANORAMIC DEVELOPMENT THROUGH INDUSTRIALIZATION.

Android workshop effectively imparted the basic know-how Mobile software is developed. It created good exposure to mobile software Dev platforms and frameworks, overall market exposure, Android platform. Highlights of the workshop are hands-on on development of Android application development. Participants learned developing the Apps on Android and also learned designing of simple media player app, calculator app etc. to complex apps like Location & Google map based apps.

**Resource Person: Mr. Pankaj Patri from Technophilia, Mumbai**

As it is a competition based workshop, a competition is held for the participants. Response of the students is awesome; they were pleased by the interaction and practical exposure of the resource person.

**Students participating in the Android Workshop at Jasmine hall**
