

Guest Lecture on “Object Recognition in Image Processing”

Report

A Guest lecture was conducted by Image Processing research group, Department of ECM on 19th August,2014 from 3.00p.m to 5.00p.m in C625,6th floor. Faculty and students of ECM and other branches had participated in this guest lecture. Mr.V.Radhesyam, Faculty, V.R.Siddhartha College of Engineering, Kanuru delivered the concepts and ideas to do research in this area. In his lecture he discussed about the Face Recognition and Vehicle Recognition techniques in Image Processing and the importance of Image matching which is a fundamental aspect of many problems in computer vision, including object or scene recognition and motion tracking.
