A Report on A Web Programming Competition—“Coding for Society” Conducted in association with CSI-Koneru Chapter

Date: 20-3-15

Venue: ECM Computer LAB

A Web Programming Competition—“Coding for Society” with a motive to bring the innovative ideas of the students which are useful to the society was conducted for B.Tech ECM ,CSE,EEE and ECE students in association with Student Body ESSENCE and CSI-Koneru Chapter on 20-03-2015 at ECM Computer LAB.

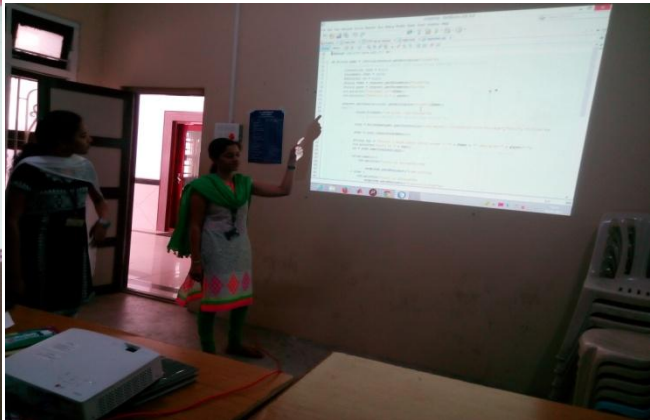

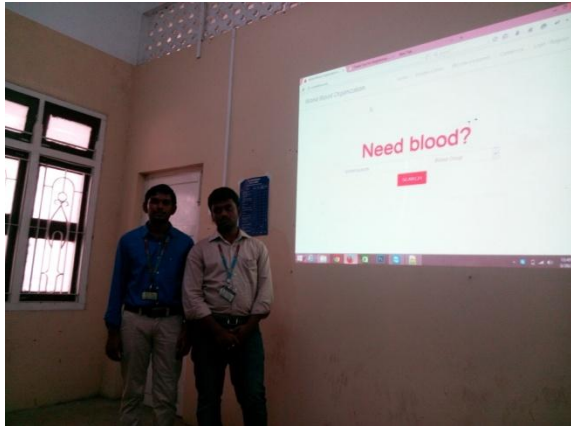

Total 15 Students actively participated in the competition. The Competition aims in developing websites that are useful for society at large.

A Web Programming Competition—“Coding for Society”

Students demonstrated the working of their websites which primarily focus on providing an interactive interface to the society regarding blood donation, adapting a village, job information for rural, anti corruption portal etc.

The Websites has various technical features which include dynamically-generated database-backed pages, personalized experience using a sign-in feature which works on various browsers like Firefox, Chrome and Internet Explorer

Students actively demonstrating their web sites
