2) CEA event in association with EEE department

The KLEF (Koneru Lakshmaiah Education Foundation) EEE (Electrical and Electronics Engineering) department's Year 22 (Y22) students recently took a commendable initiative by conducting an awareness program on the Right to Information (RTI) at Duggirala ZPHS (Zilla Parishad High School) on 21st august 2023. This initiative aimed to educate the students of Duggirala ZPHS about their rights in seeking information, a fundamental aspect of a democratic society.

The event was a resounding success, as the KLEF EEE students effectively communicated the importance of RTI and its role in ensuring transparency and accountability in government and public institutions. The Duggirala ZPHS students not only listened attentively but also actively participated in discussions and interactive sessions, showing a genuine interest in the topic.

Learning about their rights to access information seemed to empower the students, instilling a sense of responsibility and curiosity. They realized that RTI can be a powerful tool in their hands to address concerns and questions about government activities, policies, and decisions.

The KLEF EEE students' effort in promoting RTI awareness at Duggirala ZPHS demonstrates the significance of education in fostering an informed and engaged citizenry. This initiative not only benefited the students directly involved but also contributed to the broader goal of promoting transparency, accountability, and civic participation in the community. It serves as a shining example of how educational institutions can play a vital role in shaping responsible and informed citizens.
