Report:

Women empowerment is empowering the women to take their own decisions for their personal dependent. Empowering women is to make them independent in all aspects from mind, thought, rights, decisions, etc by leaving all the social and family limitations. It is to bring equality in the society for both male and female in all areas. Women empowerment is very necessary to make the bright future of the family, society and country. Women need fresh and more capable environment so that they can take their own right decisions in every area whether for themselves, family, society or country. In order to make the country fully developed country, women empowerment is an essential tool to get the goal of development.

According to the provisions of the Constitution of India, it is a legal point to grant equality to women in the society in all spheres just like male. The Department of Women and Child Development functions well in this field for the proper development of the women and child in India. Women are given a top place in India from the ancient time however they were not given empowerment to participate in all areas. They need to be strong, aware and alert every moment for their growth and development. Empowering women is the main motto of the development department because an empowered mother with child makes the bright future of any nation.

There are many formulating strategies and initiating processes started by the government of India to bring women into the mainstream of development. Women constitute half population of the whole country's population and need to be independent in every area for the holistic development of women and children.
