

TECHNO BUZZ

Date of the Event: 31-08-2013

Venue: Electrical and Electronics Engineering Department, K.L.University

Duration of the Event: 3 hrs

Prime Entrants: Sophomores (2nd years) and Juniors (3rd years)

Subject: To encourage and excavate the Technical & Communication skills among students.

Composition of the event: KLU IEEE Student Branch has carried out with focused activities in respective departments with Workshops, Technical Lectures by IEEE members, and Industrial visits. The Student branch perpetually tries to simulate technological innovations in the field of engineering and to provide a platform to various students and professional society members.

The event Techno Buzz is a collation of intensifying ideas that sprout out from the Juniors of IEEE Student Members. The event was organised with a main motto of towelling out the technical as well as Communication skills of students. 147 students belonging to II/IV and III/IV B.Tech of Electrical Engineering Department have participated in the event. The event was completely organised by student members under the esteemed guidance of Head of the Department and WIE Chapter Branch counsellor.

The event encompassed 3 rounds. Initially, all the participants were split into 2 groups. The first group were assigned with JAM(Just a minute) and a game that relates major concepts of Electrical Engineering. The other group had a Quiz. Later, the rounds were bartered. Thus the communication skills and the technical profundity were tested. The teams that excelled in all the rounds were appreciated with certificates.

Denouement: The cardinal adage of the event was successfully accomplished by the organisers and was able to spill the beans in bagging up large participants. The time bounding and effective resourcing are the prime areas that require improvements. On the end note, the event was well organized in professional scenario and included the recipe of fun filled learning.

Secretary,
IEEE KLUSB
