CIRCULAR

Sub: **Reminder for Registration of internal faculty for Two-Day Conference of IQAC on 22nd and 23rd March 2019--Reg.**

-

All the Faculty members in the list enclosed to the Circular of the Two Day Conference of IQAC dt.26-02-2019 were previously directed to register themselves COMPULSORILY for the Conference on or before 8th March 2019, as prescribed in the brochure (copy forwarded now, for immediate reference).

In view of the poor response, all the HODs concerned are hereby once again informed, to ensure that the Faculty members mentioned in the list register themselves on or before evening of Monday i.e. 11th March, 2019, failing which the matter will be viewed seriously by the authorities.

Please comply with the above instructions and send compliance.

REGISTRAR

Encl: List of faculty & Conference brochure.

About KLU

K L Deemed to be University is situated in a spacious 100-acre campus on the banks of Buckingham Canal of river Krishna, eight kilometres from Vijayawada city. Built within a rural setting of lush green fields, the institute is a virtual paradise of pristine nature and idyllic beauty. The campus has been aptly named "Green Fields" and the splendid avenue of trees and gardens bear testimony to the importance of ecology and environment. The Koneru Lakshmaiah Charities was established as a trust in the year 1980 and started KL College of Engineering in the Academic year 1980-81. The trust was converted into a Society by the name Koneru Lakshmaiah Education Foundation in the year 1996. The KL College of Engineering has attained autonomous status in the year 2006 and in February 2009, the Koneru Lakshmaiah Education Foundation Society was recognized as Deemed to be University. It is accredited by NAAC with Grade "A" in first cycle during 2012 and in second cycle with "A++" Grade in 2018. In November 2018, the UGC graded the University as "Category – I Deemed to be University".

About Conference

This rare communion of experts is to prioritize the rubrics, metrics and key performance criteria to attain the five core values of Higher Education and Research.

Paper Submission

Conference papers on the themes listed below are invited through Online.

- * Quality enhancement through Innovations in Teaching-Learning Process
- * Research, Innovation & Extension
- * Institutional Best Practices
- * Strategic planning in World's top HEIs
- * Academic Leadership & Governance

Authors are requested to submit their paper in IEEE format limited to maximum of SIX pages and mention their affiliation with address, e-Mail and Mobile number.

Send the papers to : nciqac@kluniversity.in

Visit Us at: <https://kluniversity.in/IAQHEI-2019>

Registration Fee

For Delegates from Industry - Rs.1500.00
 For Faculty - Rs.1000.00
 For Authors (Per Paper Per author) - Rs.500.00

Pay the Fee through Online transfer to the SBI account no. **62310916292** (IFSC:SBIN0021361) and duly fill the

2-Day National Conference on “Innovative Mechanisms and Standards for assuring quality in Higher Education institutions - A Report

Date: 22nd-23rd March-2019

Venue: Peacock Hall

Internal Quality Assurance Cell (IQAC) of K.L.E.F. and Academic Staff College (ASC) jointly organized a 2-day National Conference on “Innovative Mechanisms and Standards for assuring quality in Higher Education institutions” during 22nd-23rd March-2019.

The meeting began at 9:30 am on 22-3-2019 in the Peacock hall with the Chief Guest, Prof. D. P. Agarwal, Former Chairman, UPSC and the other dignitaries lighting the lamp.

Prof.D.P.Agarwal, Former Chairman,UPSC and the other dignitaries lighting the lamp.

In his introductory address, Dr. K. Ramakrishna, Dean (Quality) elaborated on the need for a meeting of this magnitude and relevance in the context of the growing awareness of quality issues in the field of Higher Education in India. He felt sure that it would help in the perception, popularization and proper implementation of the innovative ideas that have been brought into vogue by international media.

Dean-Quality elaborated on the context of growing awareness of quality issues.

The Vice-Chancellor Dr. L S S Reddy declared the Conference open and presented a brief survey of various milestones reached by KLEF (Deemed to be University) in its long climb to the pinnacle of the A++ ranking by NAAC and the University being accorded the Tier-1 grade among select Universities in India.

In his inaugural address, Dr. Agrawal complimented KLEF on the dual achievement of A++ rank in NAAC and for becoming a 'Grade-1' University. He spelt out the regimen to be followed in the next 5 years when sustenance itself demands a high quantum of quality work in research. In a major part of his speech, Dr. Agarwal laid out the road map for future attainments. He spoke on areas like social relevance, public utility and financial viability. He stressed that higher education should cease to be a government responsibility and transform itself into a social commitment as well as responsibility. Judging by international standards the best of Indian institutions have far less alumni participation. He said that we are not handicapped with lack of funds alone but India also faces a huge dearth of academic leadership. He concluded his highly inspirational speech with the thought that India has just passed the fledgling stage and has entered a period of consolidation.

Inaugural Address by Dr. Agarwal

Dr.L.S.S.Reddy, Vice chancellor KLEF felicitate to Dr.Agarwal

The keynote address by Dr. P.V.S. Prasad, Former Director, NAAC put the issue on an even keel and suggested that we may also look at the problem from a contextual angle. He said that any society depends on three deciding factors – the state, the market and education. He opined that all educational institutions should develop standards & benchmarks. However, to join the elite brand of institutions one is forced to choose between uniformity and flexibility. By preferring the latter one can build one’s own brand and thus achieve uniqueness.

Keynote address by Dr.P.V.S.Prasad, Former Director, NAAC Dr.L.S.S.Reddy, Vice Chancellor, KLEF facilitate Dr.P.V.S.Prasad

These two speeches laid a marvelous platform for the takeoff of the Conference.

The experts from various domains then gave presentations packed with knowledge and acumen. Three panel discussions were held on the themes, viz. academic leadership, IQAC systems and Industry-Institute connect.

The second day of the conference started with the presentation by Prof. V. Venkaiah (Former Vice-Chancellor, Krishna University) on Academic Leadership and Governance. An academician par excellence, Prof. Venkaiah presented the current scenario of higher education in India and the growing need for educational leaders. He noted the Welcome shift towards private organizations and the growing awareness of quality. The concepts of autonomy and accountability and different methods of resource mobilization would contribute to the progress of higher education in India. He also indicated that educational institutions perform better when they are merely managed by professionals.

Presentation by Prof.V.Venkaiah, Former vice chancellor, Krishna University

Dr. K.L. Narayana, Dean (R&D) gave a power point presentation which showed all the principles that are followed in the institute for the enhancement of quality of research.

Dr. K. Subba Rao, Principal (CoE) in his power point presentation displayed various parameters of academic training like communication, soft skills where quality enhancement has been achieved.

Session by Dr.K.L.Narayana,Dean R&D

Session by Dr.Subba Rao, Principal(CoE)

The post lunch session on Day-2 was allocated to academia-industry connect.

The guests of honor, Dr. D. Rama Krishna, M. D., Efftronics Systems Pvt. Ltd., Vijayawada and Mr. P. Srinivas, Director-Zauba Corporation, Hyderabad made two presentations on what the industry looks for in young engineers.

Dr. D. Rama Krishna from his vast experience abroad has clearly stated that there is greater productivity in the west. There is a great change between India and the west as far as best practices and methodologies are concerned. He opined that wealth has to be created and clarity of purpose is needed for that. Indian mindset and learning methods belong to the 17th Century which shows that Indians have missed all the fruits of industrial revolutions.

About industry academia interactions he said India has to adopt two policies immediately: (1) the students must go for internship of six months once during graduation and (2) students have to be prepared for the jobs they are going to handle. He said that of all those who undergo internships at least 40% of the students will be getting employment.

The second suggestion by Dr. D. Rama Krishna was that, all faculty should go on a one-month visit to an industry once every two years. This will facilitate exchange of knowledge between industry and University. The teacher would also get to know how technology works.

Session by Mr.M.P.Srinivas, Director-Zauba corporation

Session by Dr. D. Rama Krishna, M.D Efftronics pvt.Ltd

Mr. Pothapragada Srinivas, COE of Ostilio Pvt. Systems, U.S.A. in his presentation was very critical about teaching and pedagogy. He emphasized that a teacher should create a learner, and the student should become an explorer.

Industry prefers learners, explorers and problem solvers. In the USA only 10% teaching is done and 50% of the time the student concentrates on learning methodology. They should also know time management. The industry needs people who can plan, implement and solve problems. It is imperative the teaching pedagogy in Universities should undergo suitable changes.

Delegates from various organizations presented their papers.

Delegates from various organizations presented their papers

Distributed the certificates to participants

VOTE OF THANKS

Dr. M. Venu Gopala Rao, Assoc. Dean (Quality) proposed Vote of Thanks. He thanked the Chief Guest Dr. D. P. Agarwal, Guest of Honor, Dr. V. S. Prasad, Dr. V. Venkaiah, Dr. D. Rama Krishna, Er. P. Srinivas, for participating in the Conference and addressing the gathering.

He also thanked the Hon'ble Vice-Chancellor, KLEF and Deans who have actively participated in the panel discussions. He also thanked the participants from neighboring states, viz. Tamil Nadu, Telangana, Orissa, Maharashtra etc. He also thanked the Management, KLEF for their support.

FEEDBACK

The feedback from the delegates was highly encouraging. While all of them agreed that this Conference is just the need of the hour they gave their perspective suggestions on many other parameters.

A whopping 82% of the audience felt that the inaugural address by Dr. P. Agrawal was 'highly motivating' and 18% felt it combined vision with innovation.

But overall the conference by general consent was related highly as one rich in content and serious in intent.

The key-note address by Dr. V S Prasad was voted by 75% as imaginative, 15% thought it was “informative” and 10% felt it was ‘initiative’.

The three panel Discussions were found to be highly satisfactory with the one on IQAC systems getting the lion’s share of the delegate vote at 82%, while the one on Academic Leadership was a close second at 77% and the one an Industry-Institute connect was voted by 66% but it took the house by its popular appeal and the highly elite and avidity Guests of Honor.

The address by Dr. V. Venkaiah, former Vice-Chancellor of Krishna University, established once again the crucial role that ‘tradition’ plays in the Indian education system and what we need for the future is a continuum rather than the exclusion of one for the other. His speech was voted by 64% as ‘strong on content’ 12% as well-researched and 24% felt it was both ‘strong on content and well researched’

The papers presented at the conference were rated between 68% and 56%.

The delegates showed a moderately mixed reaction to the three organizational aspects of the conference with 78% satisfied by the implementation of the program schedule 76% with hospitality and with transport.

The Two-Day National Conference concluded with distribution of certificates to the participants.
