Subject: Two-Day State Level Workshop on "Scientific & Property Law".

The Bezawada Bar Association, in collaboration with KLEF College of Law, is delighted to announce a Two-Day State Level Workshop on "Scientific & Property Law" to be held on 24th and 25th August 2019.

Date: 24th & 25th August, 2019

Venue: Bezawada Bar Association.

The workshop aims to provide a comprehensive platform for legal professionals, scholars, and students to delve into the intricacies of Scientific & Property Law, exploring its contemporary relevance and emerging trends.

Highlights of the Workshop:

- Expert sessions by distinguished legal practitioners and scholars.
- Panel discussions on recent developments and challenges in Scientific & Property Law.
- Interactive sessions encouraging dialogue and exchange of ideas.
- Networking opportunities for legal professionals, academicians, and students.

We extend a warm invitation to all legal professionals, academicians, and students interested in deepening their understanding of Scientific & Property Law to join us for this enriching workshop.

Kindly circulate this information among your colleagues and students. We look forward to your active participation and contribution to making this workshop a success.

### **of Law Report on**

#### **Two day State Level Workshop on “Scientific & Property law” conducted by Bezawada Bar Association in collaboration with KLEF College of Law 24<sup>th</sup> & 25<sup>th</sup> August, 2019.**

Description: The Bezawada Bar Association, in collaboration with KLEF College of Law, organized a comprehensive workshop on “Scientific & Property Law” held on the 24th and 25th of August, 2019. This workshop aimed to delve into the intersection of scientific advancements and property law, addressing contemporary legal challenges and opportunities arising from technological progress.

#### **Objectives:**

1. To explore the nexus between scientific innovations and property law, highlighting the legal implications of emerging technologies such as biotechnology, artificial intelligence, and blockchain.
2. To provide a platform for legal practitioners, scholars, and students to engage in discussions, share insights, and exchange experiences regarding the evolving landscape of property law in the digital age.
3. To enhance participants' understanding of the legal frameworks governing intellectual property rights, patents, trademarks, and copyrights, particularly in relation to scientific advancements.
4. To facilitate networking opportunities and foster collaboration between legal professionals, academics, and industry experts in the field of scientific and property law.
5. To equip attendees with practical knowledge and skills necessary to navigate complex legal issues arising from technological innovations and their impact on property rights.

#### **Outcomes:**

1. Enhanced awareness and understanding among participants regarding the intricate interplay between scientific developments and property law, enabling them to address novel legal challenges more effectively.
2. Increased proficiency in analyzing and interpreting legal frameworks governing intellectual property rights, fostering better protection and enforcement strategies for innovators and creators.
3. Strengthened professional networks and collaborations between legal practitioners, scholars, and industry stakeholders, facilitating knowledge exchange and interdisciplinary dialogue.
4. Empowered legal professionals and students with practical insights and skills to navigate the evolving legal landscape, thereby enhancing their competence and competitiveness in the field of scientific and property law.
5. Promotion of interdisciplinary research and scholarship at the intersection of law, science, and technology, contributing to the advancement of legal theory and practice in addressing contemporary societal challenges.

- About 315 Advocates have participated.
- About 21 Faculty Members have participated across the State.
