DEPARTMENT OF MECHANICAL ENGINEERING

Department Library

About the Library!

The Department Library is dedicated to enhancing users' knowledge and overall experience by prioritizing the needs of students, faculty, and staff. Despite our limited in-person time this year, we have achieved significant milestones together within the library.

You can find the Department Library in Room No: M001A, on the Ground Floor of the Mechanical Engineering Block, adjacent to the Aerospace Laboratory. Dr. Priyaranjan Sharma, an Associate Professor, is responsible for overseeing all library operations, and Mrs. SK Reshma is a supporting staff member of department library.

We offer a wide range of resources, including 40 print journals, 2 magazines, and 36 ASME e-journals, to support our students and faculty in nurturing a lifelong passion for reading and learning.

Our Department Library is seamlessly connected to Nimbus E-learning through a mobile app and website, ensuring that students and faculty stay well-informed and up-to-date on student learning, library services, and upcoming events.
