Orders of the Vice Chancellor dt.22.12.2022

CIRCULAR

Sub: Alumni Guest lecture on “**Present Scenario in AL and ML**” by Department of Mechanical Engineering, KLEF - Reg.

Ref: Letter dated 22.12.2022 from Dr.K. Vijaya Kumar, HoD-ME.

This is to inform that Department of Mechanical Engineering, KLEF, is conducting Alumni Guest lecture on “**Present Scenario in AL and ML**” in virtual mode for students and faculty members of KLEF as per the details given below.

Expert : Mr.M.V.N. Bharath Kumar, System Engineer, Infosys, Hyderabad.

Date : 24.12.2022 (Saturday)

Time : 11.00 a.m. to 1.00 p.m.

Link for joining guest lecture:

<https://kluniversity.webex.com/kluniversity/j.php?MTID=ma352ab7d42317883ff616acf5aa37189>

All interested students and faculty can join the expert lecture.

Coordinator: Dr. S.S. Rao, Professor, Robotics and Mechatronics Research Group Head.

REGISTRAR (I/C)

Mail & Hard copy to: Hon'ble President, KLEF

Mail to: Hon'ble Vice-Presidents, KLEF

Mail & Hard copy to: Hon'ble Pro Chancellor

Mail & Hard copy to: Hon'ble Vice Chancellor

Mail & Hard copy to: Hon'ble Pro Vice Chancellor (Administration)

Mail to: Advisor – NAAC & Hyderabad Operations - Prof. K.Koteswara Rao

Mail to: All Advisors / All Deans / All Principals / All Directors

Mail to: Controller of Examinations-Dr.A.S.C.S.Sastry

Mail to: Principal-Engg.College / Vice Principal / Deputy Director / Director

Mail to: Coordinator-FED.Dr.MSG Prasad

Mail & Hard copy to: HoDs.. AI&DS / BT / CE / CSE / Comp.Engg. / CS&IT / ECE / EEE / ECM / ME

HoDs..Maths / PHY / CHEM / ENG / BES-I / BES-II

HoDs.. BBA / COM / HM / CSS / CA&MS / Law / Architecture / Pharmacy / CSA / Arts

Mail & Hard copy to: Head of Division..Communication Skills / Soft Skills / Quant & Reasoning

Mail to: All Dy. HoDs / All Alt. HODs

Mail to: KL H HoDs..CSE / AI&DS / ECE / Coordinator-FED

Mail to: All students

Mail to: All faculty

Thanks & Regards

Dr. A. Jagadeesh

Alumni Guest Lecture

Title: Present Scenario in Artificial Intelligence and Machine Learning (AI & ML)

Date: 24-12-2022

Venue: Online and offline (CAD Lab)

Time: 11.00 am to 1.00 pm

Resource Person: Mr.M.V.N. Bharath Kumar,
System Engineer,
Infosys, Hyderabad.

Summary of the Alumni GL:

AI is a branch of science and assist machines to find solutions to complex problems in a more human-like fashion. It is the future of Next Generation Technology. It encompasses variety of disciplines like Medical, Finance, Engineering. It is the main tool behind new-age innovation and discoveries like driverless cars or disease detecting algorithm. Generalized AI is worth thinking about because it stretches our imaginations and it gets us to think about our core values and issues of choice.

AI is trained final output machine which mimic like human brain, Ex: Amazon Alexa. ML is a subset of AI. It is a technique to achieve AI. Ex: Spam Detection. We are now solving problems with machine learning and AI that were in the realm of science fiction for the last several decades They increase user retention by sending reminders and notifications. They offer instant answers compared to human assistants, thus reducing response time. Chatbots provide upselling opportunities through personalized approach.

They increase user retention by sending reminders and notifications and offer instant answers compared to human assistants, thus reducing response time. Chatbots provide upselling opportunities through personalized approach. Implementation of artificial intelligence makes it possible for online stores to use the smallest piece of data about every followed link or hover to personalize your experience on a deeper level. This personalization results into timely alerts, messages, visuals that should be particularly interesting to you, and dynamic content that modifies according to users' demand and supply.

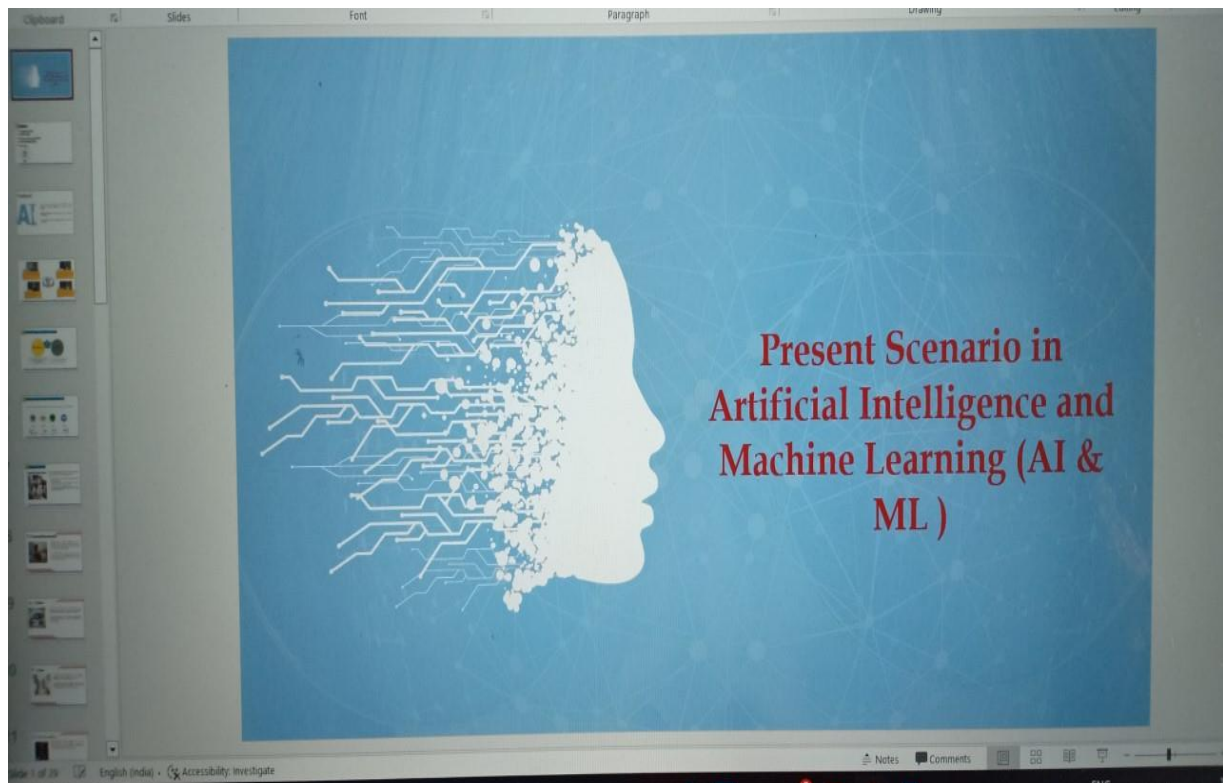

AI-enabled workflow assistants are aiding doctors free up their schedules, reducing time and cost by streamlining processes and opening up new avenues for the industry. In addition, AI-powered technology helps pathologists in analysing tissue samples and thus, in turn, making more accurate diagnosis. Automated advisors powered by AI, are capable of predicting the best portfolio or stock based on preferences by scanning the market data.

With autonomous vehicles running on the roads and autonomous drones delivering the shipments, a significant amount of transportation and service-related issues can be resolved faster and more effectively. With AI-enabled mapping, it scans road information and utilizes algorithms to identify the optimal route to take, be it in a bike, car, bus, train, or on foot. Facebook uses advanced machine learning to do everything from serving content to you and recognizing your face in photos to target users with advertising.

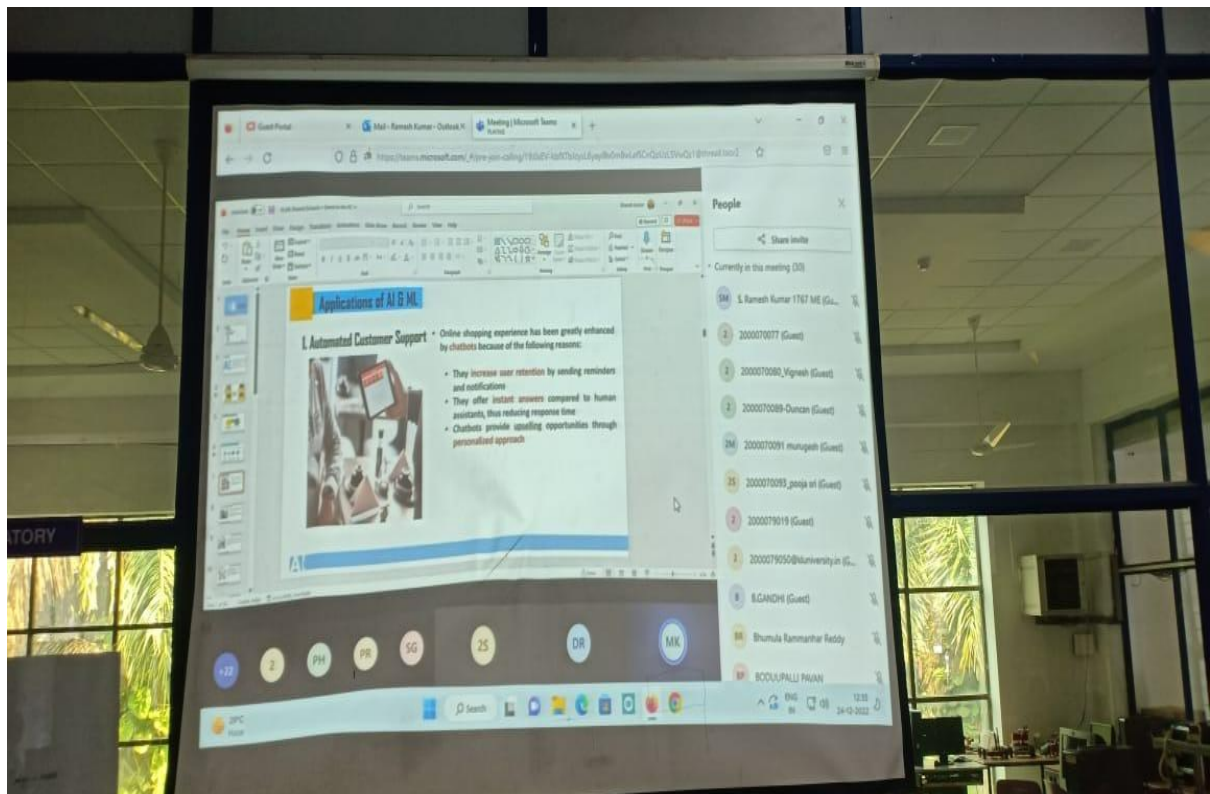

Instagram (owned by Facebook) uses AI to identify visuals. LinkedIn uses AI to offer job recommendations, suggest people you might like to connect with, and serve you specific posts in your feed. The connected devices of smart homes provide the data and the AI learns from that data to perform certain tasks without human intervention. AI-powered technologies can help musicians create new themes.

AI is making possible for humans to constantly monitor multiple channels with feeds coming in from a huge number of cameras at the same time. Start-ups ecosystem, has been nourished with the advent of technology, and has given rise to more evolved business processes. These days logistics, accounts, marketing and team performance & HR have all been supported by AI technology.

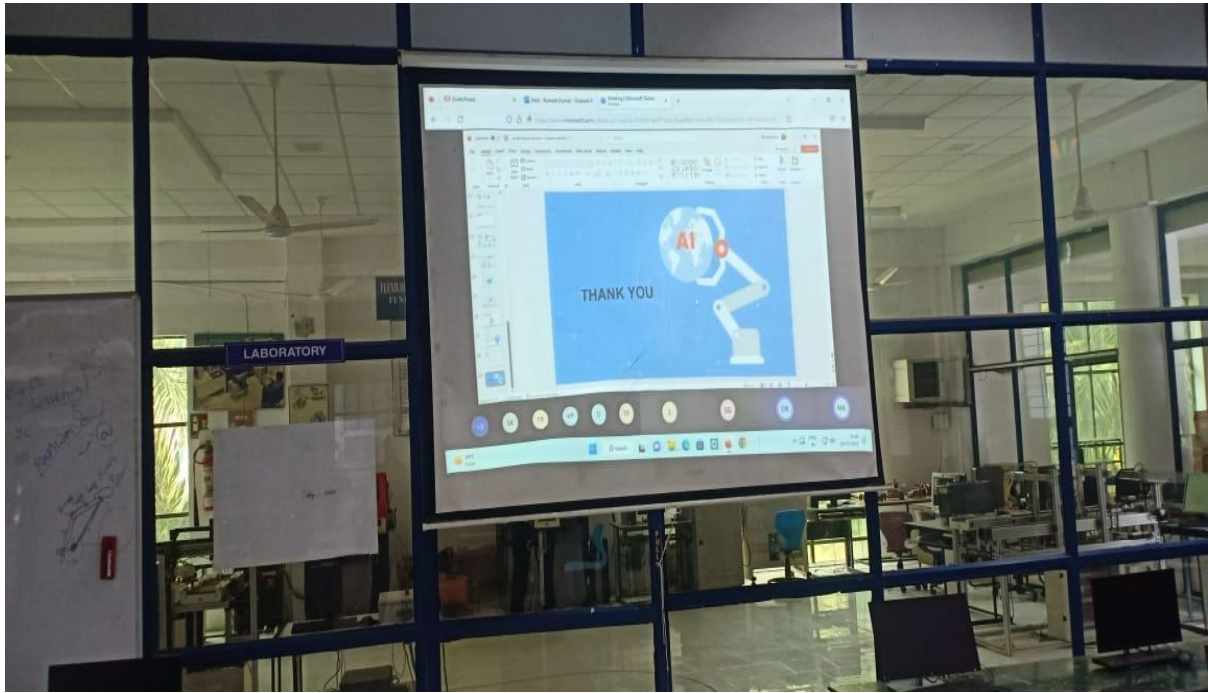

As an Artificial Intelligence aspirant, you have ample of job opportunities in this field. Artificial intelligence will transform the global economy, and AI jobs are in high demand. According to International Data Corporation (IDC), the number of AI jobs is expected to globally grow 16 percent this year. AI careers are future-proof, meaning they are likely to survive well into the future. Getting an education in AI is challenging and requires persistence and personal initiative.

Resource Person : **Mr.M.V.N. Bharath Kumar,**
