#### During his interactive lecture, he discussed on:

The guest lecture was organized to bridge the gap between academic learning and industrial requirements. Mr. K. Krishna Kumar shared his extensive industrial experience from the manufacturing sector, particularly pumps and motors. The session focused on preparing engineering students for real-world industry challenges. He explained importance of strong fundamentals in core mechanical engineering subjects, Need for practical knowledge alongside theoretical understanding, Industry preference for engineers who can apply concepts to solve real problems. Also he focused on Emphasis on internships, industrial training, and live projects during the degree program, exposure to shop-floor practices, safety standards, and production processes, understanding real-time constraints such as cost, time, and quality.

He motivated students for choosing the right career path: core industry, higher studies, or entrepreneurship and explained importance of certifications, workshops, and skill-based courses, preparing for interviews with focus on practical knowledge and attitude.
