Event	Webinar on Energy Management
Location	KLEF
Date of event	25-01-2021

Webex link: <https://meetingsapac22.webex.com/meet/pr915453203>

Mechanical Engineering Department has conducted a “**Webinar on Energy Management**” awareness programme By Mr. V. Naga Raju through webex online medium with all III/IV B.Tech Students and faculty members, the main moto of this program is to bring the awareness among the students to learn regarding Energy Management Procedure. Webinar speaker discussed different types of Energy Management systems and given some solutions for managing energy by following some latest techniques, different methods also very clearly explained by speaker and all the participants thoroughly interacted with resource person and got clarifications on their queries.

The screenshot shows a Slideshare interface. The main slide features an image of an industrial power plant with the text "Energy Management" and "Slide Team". Below the slide, it says "1 of 65" and "418 views". The presentation title is "Energy Management PowerPoint Presentation Slides". On the right side, there is a "Recommended" list of presentations and a "Speaking:" section with the name "6029-LEELA KISHAN JAKKAM" and the role "Cohost".
