### POLLUTION AWARENESS

#### EVENT DETAILS:

EVENT NAME	POLLUTION AWARENESS
DATE	07-07-2019
TIME	9:30AM
MEETING PLATFORM	OFFLINE(GUNDIMEDA VILLAGE)
NO OF STUDENTS PARTICIPATED	47
NO OF FACULTY PARTICIPATED	4
NO OF BENEFICIARIES	47

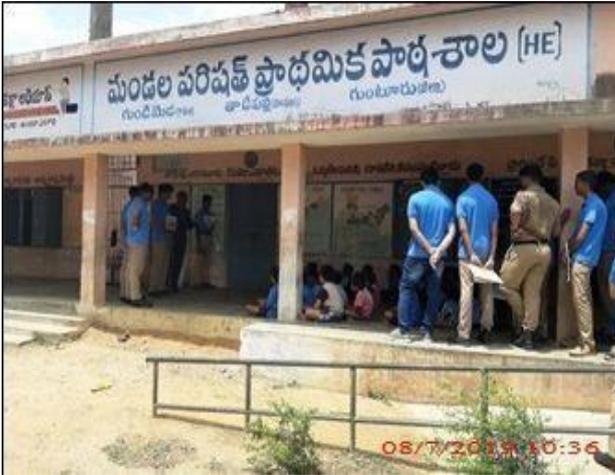

As Per the guide lines given by NCC Unit 22(A) Battalion a mega event on pollution awareness pakhwada a national level event conducted from 01 July to 11 July 2019. In this connection KLEF University conducted an event of road show and rally in Gundimeda village, on air, water, soil and noise pollution awareness .This event was organized on 07-07-2019 from 9:30 am to 12:30 pm. Cadets of 22(A) Battalion made a rally in the village of gundimeda and conducted a meeting with the villagers at panchayat office for giving awareness on pollution and its effects. Villagers got benefitted because of this event and most of the villagers were not having the knowledge of pollution and there effects. They were also not having the idea how exactly pollution is caused through air water and soil. After the completion of this program cadets went to government primary school to guid the students to keep pollution free environment after that on this occasion we had taken pledge in school by the students. In this event 4 teachers and 47 students participated and got benefitted from this event.

Creating pollution control awareness through the National Cadet Corps (NCC) can have a significant positive impact on the environment. Here are some steps and ideas for promoting pollution control awareness within the NCC:

- Organize workshops on pollution types, causes, and effects. Invite environmental experts, scientists, or professionals to give talks and presentations. Focus on topics like air pollution, water pollution, waste management, and sustainable practices.
- Plan visits to local pollution control facilities, recycling centers, wastewater treatment plants, or renewable energy installations. Seeing these processes in action can provide cadets with practical insights into pollution control efforts.

- Conduct regular clean-up drives in local communities, parks, and water bodies. Engage cadets in hands-on activities to collect litter and raise awareness about the impact of improper waste disposal.
- Encourage cadets to design and create posters that highlight the importance of pollution control and sustainable practices. Display these posters in schools, colleges, and public spaces.
- Organize tree planting events to emphasize the role of trees in air purification. Planting trees can also promote a sense of responsibility among cadets towards the environment.
