National Cadet Corps (NCC) and the NDRF mock drill at Koneru Lakshmaiah Education Foundation (KLEF)

The National Cadet Corps (NCC) unit of Koneru Lakshmaiah Education Foundation (KLEF) is renowned for organizing exceptional events that significantly contribute to the development of a more aware society; by laying down the guidelines for conducting mock exercises by NDRF in the utmost professional manners with objectivity.

The broad objectives of the Mock Exercise are as given below:

- a. Reviewing Disaster Management Plans
- b. To evaluate the Disaster Response Plan
- c. To identify the efficacy of SOPs
- d. To highlight the roles and responsibilities of various Stakeholders
- e. Enhance coordination among Emergency Support Functions of various stakeholders
- f. To generate public awareness by involvement of Local Government, NGOs and Public
- g. To identify the gaps in resources, manpower, communications and in any other field
- h. To enhance the ability to respond faster

Insights

This shall provide guidance and assigns responsibility to the concerned officials of NDRF to execute their professional actions in all parameters for purposeful conduct of the Mock Exercise and to educate the cadets with the requisites to help in the times of calamity .

CONDUCT OF MOCK EXERCISE

Unit Commandant conducted the Mock Exercises in two ways:

- i. 'IN-HOUSE' Mock Exercise: The Mock Exercise which is carried out within the purview of the organizing agency/organization/institution/industry/department/ Multi-Accident Hazards Installations etc., without involving any outside agencies for any sort of response, apart from being observers. NDRF needs to plan & conduct 'In-House' Mock Exercises involving only the unit personnel and its resources.
- ii 'OUT-HOUSE' Mock Exercise: The Mock Exercise which is carried out in a larger way at a community, involving all the ESFs, within the local, district or State jurisdiction, in order to assess their response mechanism and to update the SOPs of all the agencies. The designated officials of the EOC and IRS system of the concerned Sub-Division/ District level as per the DM Act-2005 shall be entrusted to execute their respective roles in the Mock Exercise. All such agencies responding to disastrous situations shall take orders from the designated IRO (Incident Responsible Officer). Participation of the local NGOs should also be ensured. Therefore, Unit Commandant NDRF might plan and execute 'Out-House' Mock Exercises involving all relevant stakeholders.

Impact of the mock drill on NCC Cadets

It made the cadets realize that National Cadet Corps (NCC) plays a significant role in disaster management in many countries, including India. The NCC is a youth organization that aims to develop character, comradeship, discipline, leadership, secular outlook, spirit of adventure, and ideals of selfless service amongst young citizens. Overall, it reminded the cadets that they play a crucial role in building a culture of preparedness and resilience among the youth and communities, thereby contributing to more effective disaster management efforts.

Role of NCC Cadets

Our NCC cadets received training in disaster management skills like first aid, search and rescue, and communication.

Cadets learned how they can help set up and run relief camps, and collect, load, and distribute relief items like food and medical aid. Also helping with traffic management, evacuation, and cultural and recreational activities for victims. They can also help clean up debris left behind by a disaster.

Social awareness

Our NCC cadets were also involved in other social awareness initiatives, environmental issues, and nation building efforts.

CONCLUSION

Mock Exercises have proved to be a useful tool to test the preparedness against any type of disaster. Correct methods of conducting mock exercises will go a long way in improving the preparedness in the community against all types of perceived disasters. We cannot prevent hazards from happening, but can surely prevent them from becoming disasters and when they do happen, to minimize their effect in terms of loss of human lives and damage to infrastructure, by taking preventive and mitigation measures. Hence, NDRF might use this vital tool called 'Mock Exercise' in training and educating the community and where also the NCC's training equips cadets with essential skills for search and rescue operations, first aid, and communication, ensuring an efficient and effective response during disasters.
