### Report on Clean India Program conducted on 02-10-2021 at Ippatam

#### Objective:

The objective of the Clean India Program conducted on 02-10-2021 at Ippatam was to promote cleanliness and hygiene in the village by actively involving NSS volunteers in cleaning public areas, raising awareness about sanitation practices, and fostering a sense of responsibility towards maintaining a clean environment among the residents.

#### Description:

The Swachh Bharat Abhiyan, also known as the Clean India Mission, is a nationwide campaign in India aimed at cleaning streets and roads. It is India's largest cleanliness drive, referred to as Satyagrah Swachhagrah by Prime Minister Narendra Modi. Participants included KLEF Advisor Dr. Habibulla Khan, Dean Student Affairs Dr. KRS Prasad, Dr. Veera Raghavaiah Ravuri, Director of College of Agriculture, and Mr. K. Veera Bhadra Rao, Head of Department at KL College of Agriculture. Dr. K. Ravindranath, Associate Dean of Extension Activities, Mr. P. Srikanth Reddy, Programme Coordinator of KLEF NSS Cell, and Dr. Atul Singh, NSS Programme Officer, were also present to support and appreciate the NSS volunteers during the Plantation Camp held on 02-10-2021 at Ippatam Village, Guntur (A.P). Coordination for the event was handled by Mr. P. Suresh, Coordinator CEA, PSenthilmurgan T. Sivakrishna, and Mr. GVKP. Chandrasekhar, Smart Village Student Mentors.

#### Outcome:

The Clean India Program, also known as the Swachh Bharat Abhiyan, is a nationwide cleanliness campaign launched by the Government of India. It aims to eliminate open defecation and improve solid waste management in urban and rural areas.

The outcomes of the Clean India Program can be summarized as follows:

1. **Improved Sanitation Facilities:** One of the primary goals of the program was to build millions of toilets across the country to ensure access to sanitation facilities, especially in rural areas. Significant progress has been made in this regard, although challenges remain in ensuring universal coverage and maintenance.
2. **Awareness and Behavior Change:** The program has contributed to raising awareness about sanitation and hygiene practices among the population. This includes promoting the use of toilets and proper waste disposal methods.
3. **Cleaner Public Spaces:** Efforts under the program have led to improved cleanliness in public places such as streets, parks, and tourist spots. This has contributed to a better environment for residents and visitors alike.

4. **Health Benefits:** Access to improved sanitation facilities can lead to better public health outcomes by reducing the spread of diseases related to poor sanitation and open defecation.
5. **Economic Impact:** The program has economic implications, including potential benefits from improved health outcomes and productivity gains due to better sanitation infrastructure.
6. **Challenges and Continuing Efforts:** Despite the achievements, challenges such as sustaining behavioral changes, ensuring the maintenance of infrastructure, and achieving universal sanitation coverage remain. The government continues to work on addressing these challenges through various initiatives and campaigns.

Overall, while significant progress has been made under the Clean India Program, ongoing efforts are essential to achieve the long-term goals of sanitation and cleanliness in India.

### **Impact on Society:**

The Clean India Program has significantly improved public health by reducing open defecation and promoting hygiene awareness, leading to cleaner environments and enhanced quality of life across Indian society. It has also fostered a sense of civic responsibility and community pride in maintaining cleanliness, contributing to social cohesion and sustainable development goals.
