Objective:

To give enhance Awareness on Cyber Crimes to Girl Students, Koneru Lakshmaiah Education Foundation conducted event in Mellampudi, in Government School on 25-03-2024.

Description:

Cybercrime refers to criminal activities carried out using digital devices, computer networks, or the internet. These crimes often involve unauthorized access, theft of data or intellectual property, financial fraud, or disruption of services.

Some common types of cybercrime include:

- Hacking: Unauthorized access to computer systems, networks, or devices, often to steal sensitive information or disrupt services.
- Malware attacks: The use of malicious software, such as viruses, ransom ware, or spyware, to infect computer systems and cause damage or steal information.
- Phishing: The use of deceptive emails, text messages, or websites to trick individuals into providing sensitive information such as login credentials or financial data.
- Online fraud: The use of deception or trickery to steal money or property from individuals or businesses online.
- Identity theft: The unauthorized use of an individual's personal information, such as their name, Social Security number, or credit card information, for fraudulent purposes.
- Cyber stalking: The use of electronic communications to harass, intimidate, or threaten an individual or group.
- Child exploitation: The use of digital devices or the internet to exploit or harm children, including sexual exploitation, grooming, or cyber bullying.
- Intellectual property theft: The unauthorized use, reproduction, or distribution of copyrighted or trademarked material.

Procedure of the Event:

1. The KLEF Students, Faculty and Participants have arrived at Mellampudi village.
2. The volunteers commenced the event by explaining their awareness on personal hygiene to the students, faculty, and participants.
3. The event begins in a government school, interaction through students, led by enthusiastic volunteers.
4. Prepare educational materials, visuals, and interactive activities to engage students effectively.
5. Displaying banners and posters promoting personal hygiene awareness.
6. Volunteers address enquiries and provide additional guidance as needed.
7. Finally, gather feedback from students, teachers, and volunteers.

Outcome:

Cybercrime can have significant and far-reaching outcomes for individuals, businesses, and governments, including:

- Financial losses: Cybercrime can result in substantial financial losses for individuals and organizations due to theft, fraud, or disruption of services.
- Reputation damage: Data breaches, website defacement, or other forms of cyber attacks can harm the reputation of businesses, leading to loss of customer trust and reduced revenue.
- Intellectual property theft: Cybercriminals can steal trade secrets, proprietary software, or other forms of intellectual property, causing significant harm to businesses and undermining their competitive advantage.
- Legal consequences: Individuals or organizations that fall victim to cybercrime may face legal consequences, including lawsuits from customers or shareholders, fines, or regulatory penalties.
- National security threats: Cyber attacks on government systems or critical infrastructure can pose a threat to national security, including theft of sensitive information, disruption of essential services, or interference in political processes.
- Emotional distress: Victims of cybercrime may experience emotional distress, including feelings of violation, anxiety, or fear.
- Loss of privacy: Individuals whose personal information is stolen or compromised through cybercrime may face loss of privacy and increased

vulnerability to identity theft or other forms of exploitation.

Overall, the awareness on personal hygiene conducted by the KLEF team on 25-03-2024 successfully the students completed the program by raising awareness on personal hygiene.
