Objective:

The objective of creating awareness on cancer among villagers is to educate them about early warning signs, prevention methods, and the importance of regular health check-ups. By spreading accurate information, villagers can recognize symptoms early and seek timely medical care, increasing the chances of successful treatment. It also aims to dispel myths and reduce the stigma associated with cancer. Ultimately, the goal is to empower rural communities to take proactive steps toward better health and cancer prevention.

Description:

On Saturday, 22nd February 2025, volunteers from the KL University National Service Scheme (NSS) conducted a cancer awareness campaign in Vaddeswaram village, located in Tadepalli Mandal. As part of this initiative, the volunteers went door-to-door educating residents about cancer, its symptoms, prevention, and the importance of early detection. The program was coordinated by Mr. P. Sreekanth Reddy (Program Coordinator) and Mr. P. Suresh (Field Coordinator). Their efforts were greatly appreciated and encouraged by the university's Vice Chancellor Dr. G. Pardhasaradhi Varma. Pro Vice Chancellors Dr. AVS Prasad, Dr. K. Rajasekhara Rao, and Dr. N. Venkata Ram also applauded the volunteers for their commitment. The campaign aimed to dispel myths about cancer and spread scientific knowledge among rural populations. Through this initiative, the NSS team sought to empower the villagers with life-saving information and promote healthier living. The awareness drive reflected KL University's dedication to social responsibility and community service.

Outcome:

The event successfully increased cancer awareness among the villagers, encouraging them to recognize early symptoms and seek timely medical help. It helped dispel common myths and reduced stigma surrounding the disease. The initiative strengthened the bond between the university and the rural community through meaningful outreach.

Impact on Society:

The event created a positive impact by promoting health consciousness and preventive care in the rural community. It empowered villagers with knowledge, leading to improved health-seeking behavior. Such initiatives contribute to building a more informed and healthier society.
