SAFE HANDLING & PRECAUTIONS WHILE SPRAYING PESTICIDES

SAFE FARMING, HEALTHY LIVING

Pesticides protect crops, but unsafe use can harm our health, environment and future.

HANDLE WITH CARE, SPRAY WITH AWARENESS, STAY SAFE, STAY HEALTHY!

IMPORTANT PRECAUTIONS

- Wear proper protective clothing
- Read label instructions carefully
- Use the correct dose and mix properly
- Spray in the right direction. Avoid windy conditions
- Do not eat, drink or smoke during spraying
- Wash hands and take bath after spraying

DO'S

- Use recommended pesticides and equipment
- Calibrate sprayer before use
- Store pesticides in a locked and safe place
- Dispose empty containers safely
- Keep children and animals away from sprayed areas
- Follow re-entry time before entering the field

DON'TS

- Don't use damaged spraying equipment
- Don't mix pesticides with bare hands
- Don't use expired pesticides
- Don't spray near water bodies and homes
- Don't ignore safety instructions

SAFE PRACTICES TODAY, A HEALTHY TOMORROW!

- PROTECT YOUR HEALTH
- PROTECT OUR ENVIRONMENT
- PROTECT OUR FUTURE

DATE: 03-04-2026 (Friday) **PLACE:** PEDAVADLAPUDI **TIME:** 9:00 AM onwards

LET'S WORK TOGETHER FOR SAFE FARMING & SUSTAINABLE FUTURE
Organized by: Pedavادلapudi Village Panchayat & Local Youth Volunteers

Event : Safe handling & Precautions while Spraying Pesticides
Date : 03-04-2026
Place : Pedavادلapudi

Objective:

The objective of the Safe Handling & Precautions while Spraying Pesticides program is to educate farmers about the safe use of pesticides to protect their health and the environment. It aims to create awareness about proper protective equipment, correct spraying methods, and safe storage practices. The program also helps prevent pesticide poisoning, crop contamination, and environmental damage. Overall, it promotes safer farming practices, farmer well-being, and sustainable agriculture.

Description:

As per the directions of the Ministry of Youth Affairs and Sports, Government of India, National Service Scheme (NSS), and in accordance with the guidelines of the Regional Directorate, Hyderabad and Andhra Pradesh State NSS, the NSS Unit of the College of Agriculture, KL University organized an awareness program on “Safe Handling & Precautions while Spraying Pesticides” on Friday, 3rd April 2026, in Pedavadlapudi village. Dean of Student Affairs, Dr. K.R.S. Prasad, stated that the program was conducted to educate farmers about the safe use of pesticides for crop protection while safeguarding their health and the environment.

Director of the College of Agriculture, Dr. P. Ratna Prasad, explained that although pesticides are essential for protecting crops, improper handling can be harmful to human health and the environment. He emphasized that farmers should always wear protective gear such as masks, gloves, goggles, and full-body clothing while spraying pesticides. He also advised farmers to carefully read pesticide labels and mix chemicals only in the recommended quantities.

Head of the College of Agriculture Department, Dr. Balakrishna, informed farmers that pesticide spraying should be avoided during strong winds or when rain is expected. He also stressed that eating, drinking, or smoking during spraying is unsafe, and children, pregnant women, and animals should be kept away from sprayed areas. After spraying, farmers should thoroughly wash their hands, face, and body to avoid harmful exposure.

NSS Programme Coordinator, Dr. P. Srikant Reddy, advised that empty pesticide containers should be disposed of safely instead of being thrown carelessly, and pesticides must be stored securely out of children’s reach. He promoted the message “Safe Spraying – Healthy Living,” emphasizing that careful agricultural practices protect farmers’ health, family safety, and the environment.

NSS Programme Officer, Dr. S. Pradeep Kumar, stated that agriculture volunteers worked in teams to spread awareness among farmers regarding safe pesticide practices.

The program was successfully coordinated by NSS Field Coordinator Mr. P. Suresh. The volunteers were appreciated by University Vice-Chancellor Dr. G. Parthasarathi Varma, Pro Vice-Chancellors Dr. A.V.S. Prasad, Dr. N. Venkataram, and Dr. K. Rajashekhara Rao, along with Dean Advisors Dr. Habibullah Khan, Registrar Dr. K. Subbarao, Principal Dr. V. Rajesh, Advisor Dr. Habibullah Khan, Associate Dean Dr. Shanta Sri, and other dignitaries.

Outcome:

The outcome of the program was positive as farmers gained valuable knowledge about safe pesticide handling, protective measures, and responsible spraying practices. They learned how to protect their health, families, crops, and the environment through proper pesticide use. The initiative encouraged safer agricultural habits and reduced the risks of pesticide-related health issues. Overall, the program promoted responsible farming practices and improved awareness of agricultural safety.

Impact on Society:

The program has a positive impact on society by promoting safer farming practices, protecting farmers' health, and reducing environmental risks caused by improper pesticide use. It helps prevent health hazards, encourages responsible agriculture, and improves community well-being. The initiative also supports sustainable farming and family safety through increased awareness. Overall, it contributes to healthier agricultural communities and a safer environment.

Details of the Event:

Name of the Event : Safe handling & Precautions while Spraying Pesticides

Place of the Event : Pedavadlapudi

Date of the event : 03-04-2026

No. of Hours : 10:00 am to 01:00 pm

No. of Participants : Students: 98, Faculty: 03

No. of Beneficiary's : 467
