Guntur District, Andhra Pradesh.

Objective:

The objective of raising awareness on rainwater harvesting is to educate communities about the importance of conserving water for sustainable use. It aims to encourage individuals and households to collect and store rainwater for daily and agricultural purposes. The initiative seeks to reduce dependency on groundwater and prevent water scarcity in the long term. It promotes environmental conservation and responsible water management practices. Overall, the program fosters a culture of water sustainability and helps secure resources for future generations.

Description:

As per the directions of the Ministry of Youth Affairs and Sports, under the Jal Shakti Abhiyan / National Water Mission and state-level water conservation schemes, the NSS Unit of the College of Agriculture, KL University, conducted a rainwater harvesting awareness program for the residents of Pedavadlapudi village in Mangalagiri Mandal on Monday, 22nd September 2025, informed Director Dr. P. Ratnaprasad.

During the event, College of Agriculture Head Dr. B. Balakrishna emphasized that water is the source of life for all living beings and advised villagers to adopt modern methods to overcome future water scarcity challenges. Volunteers educated the public on rainwater conservation measures and highlighted that water scarcity arises due to factors like erratic rainfall, wastage, overuse, and pollution.

NSS Programme Officers Dr. K. Vineel and Dr. S. Pradeep Kumar explained that water shortages can be reduced by implementing smart irrigation techniques, adopting water-saving practices in homes and agriculture, setting up rainwater storage tanks, and treating wastewater from industries and households for reuse in gardens, agriculture, and sanitation.

Dr. K. R. S. Prasad, Head of Student Affairs at KL University, noted that planting trees can enhance groundwater recharge through timely rainfall and that strict government regulations, along with proper water distribution planning, can help overcome water scarcity.

The participating volunteers and NSS Field Coordinator P. Suresh were appreciated by KL University Vice-Chancellor Dr. G. Parthasaradhi Varma, Pro Vice-Chancellors Dr. A. V. S. Prasad, Dr. K. Rajashekhara Rao, Dr. N. Venkatram, Dean Dr. Habibulla Khan, and NSS Programme Coordinator Dr. P. Sreekanth Reddy.

Outcome:

The rainwater harvesting awareness program helped villagers understand the importance of conserving water for sustainable use. It educated them on modern water-saving techniques, smart irrigation, and the reuse of treated wastewater. The initiative motivated community members to adopt practical steps like installing storage tanks and planting trees to enhance groundwater recharge. Volunteers' engagement strengthened community participation and responsibility toward water conservation. Overall, the program fostered a culture of sustainable water management and preparedness against future water scarcity.

Impact on Society:

The rainwater harvesting awareness program positively impacted society by promoting responsible water usage and conservation practices. It encouraged villagers to adopt sustainable methods in households, agriculture, and community spaces, reducing dependency on groundwater. The initiative helped prevent water wastage and pollution, contributing to a healthier environment. By involving volunteers and local residents, it strengthened community participation and environmental stewardship. Overall, the program fostered long-term water sustainability and resilience against water scarcity challenges in the society.

Details of the Event:

Name of the Event	: Awareness on Rainwater Harvesting
Place of the Event	: Pedavadlapudi
Date of the event	: 22-09-2025
No. of Hours	: 10:00 am to 01:00 pm
No. of Participants	: Students: 95, Faculty: 03
No. of Beneficiary's	: 1023
